

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Mr. F. H. Watson presented the following protest against the passage of the bill.

I hereby protest against the passage of the bill to revise the laws in relation to co-operative and mutual benefit associations, being House bill file No. 385, for the following reasons, to-wit:

First, That it places restrictions upon said associations which it does not place upon old line insurance companies, and I believe it will act in the interest of old line companies;

Second, That it abridges the personal liberty of man in not allowing a man who has been unfortunate enough to arrive at the age of 65 years to take out a certificate of insurance upon his life for the protection of his aged wife who has shared with him the cares and duties of life, and who at his death may be thrown at an advanced age upon the tender mercies of the world, and virtually says to the man over the age of 65 years, you are in a condition of imbecility and not capable of making contracts and is enacting the money paid in by innocent certificate holders, being about 60,000 in number, out of their pockets.

F. H. WATSON.

PRESENTATION OF PETITIONS.

No. 1256. By Mr. Lakey: Resolutions of the Kalamazoo Academy of Medicine, relative to the State board of health.

On demand of Mr. Lakey.

The resolutions were read at length and spread at large on the journal, as follows:

WHEREAS, Certain newspapers of the State have sought to belittle our State board of health and its work; and

WHEREAS, Senator Sharp has introduced a bill to repeal the act of 1881 whereby \$2,000 per year is appropriated for sanitary conventions and other sanitary work;

Therefore, be it by the Kalamazoo Academy of Medicine, a legally incorporated body of regular physicians, and whose membership reside in the various counties of Southwestern Michigan.

Resolved, That the Michigan State board of health has done and is doing a work which places it among the leading sanitary bureaux of the world, and which has caused it to be regarded as an authority on such subjects in Europe as well as in America;

Resolved, That in holding sanitary conventions in the various localities of the State, not so much to advance sanitary science, as to distribute among the people knowledge already gathered, the board has acted very wisely, and that the results of such conventions have been worth many times their cost;

Resolved, That such conventions are at least as valuable to the community as either teachers' or farmers institutes;

Resolved, That any action by the Legislature which should tend to cripple the work of the board, would be a public injury;

Resolved, That we, as a society, request our members of the Legislature to use their utmost endeavor to aid, not hinder, the work of the State board of health;

Resolved, That a copy of these resolutions, signed by the President and Secretary of the Academy, be sent to Senator Willits and Representative A. L. Lakey, with the request that they present the same to their respective Houses.

Respectfully submitted,

REPORT OF SELECT COMMITTEES.

The select committee on assignment of clerks to committees, to whom was referred the matter of Andrew Healey (one of the assistant janitors of the House), being absent without leave, have investigated, and find the facts to be,

That one week ago said Healey was granted leave of absence by the chief janitor for one day;

That since that time he had twice fixed dates for his return, and had so notified the chief janitor, but had not returned as he was expected to do at either of the dates fixed by him.

Receiving no explanation of his continued absence, the chief janitor deemed it best to notify the House, and advise that some action be taken in the matter.

Mr. Healey reported for duty last evening and explained that since the time he was granted leave of absence as above stated, he has been sick, and under the care of a physician who advised him not to return at the time he had intended to do so.

Your committee believe that his explanation should be deemed sufficient, and have directed me to recommend that no further action be taken by the House in this case, and ask to be discharged from the further consideration of the subject.

Permit me to call your attention at this time to a memorial of the General Assembly of the State of Ohio, in the form of a joint resolution, recently passed, and forwarded to me by His Excellency, J. B. Foraker, Governor of Ohio, as follows:

"WHEREAS, This General Assembly did, at its last session, by joint resolution, passed unanimously, distinctly recognize the great importance of the acquisition and occupation of the territory northwest of the river Ohio, and did recommend a celebration of those events, and also did recommend the erection of a suitable memorial structure at Marietta, Ohio, commemorative of the services of the men who laid the foundations of free States within the aforesaid territory, and

"WHEREAS, The General Assembly did also recommend an exposition of the industrial and educational progress of the people of Ohio, to be held in her capital city in the autumn of the year 1888, and

"WHEREAS, The four States, Indiana, Illinois, Michigan and Wisconsin, which, with Ohio, comprise the old northwest territory, therefore having in common a historical interest in these events and in the proposed proceedings commemorative thereof, and

WHEREAS, The General Assembly of the State of Ohio, fully recognizing the importance and significance of our great organic law, the ordinance of 1787, and of the first settlement of our soil made in pursuance thereof at Marietta, April 7th, 1788, and that the occasion of its centennial should be made one in which not only the State of Ohio, but the other States forming the northwest territory can participate, and believing it to be the earnest wish of the people of Ohio that the five great commonwealths now comprising this territory should unite in the social celebration of these events at Marietta, Ohio, in April, 1888, and also in the industrial and educational exposition at the capital in the autumn of the same year, therefore

"Be it Resolved by the General Assembly of the State of Ohio, That a cordial invitation be extended to the people of the heretofore mentioned States to participate in the efforts now in progress to celebrate these events, and to preserve for the benefit of posterity the memories of those who laid the enduring foundations of republican institutions in the central portions of this great republic;

"Resolved, second, That the Governor is hereby requested to transmit to the Executive of each of the States of Indiana, Illinois, Michigan, and Wisconsin, copies of this joint resolution, in such manner and with such greeting and formal invitation as he may deem proper.

WHEREAS, This House has, with deep regret, learned of the death of the Hon. Chas. E. Stuart, of Kalamazoo, a distinguished citizen of this State, member of the House of Representatives of 1841, ex-member of Congress and

ex-United States Senator, and feels that in the decease of this eminent gentleman the State has lost an ancient and honored landmark and one of the creators of her history; therefore

Resolved, That the House hereby expresses its deep sense of the long and distinguished services of the deceased to this State and the loss sustained in his death; and

Resolved, That the State and National flags of the capitol be placed at half mast until the funeral of the deceased statesmen in respect to his memory,

Which was unanimously adopted.

A statement made over the signature of one J. L. Kinyon of Marshall, Mich. Now I have to say, the gentleman is entirely mistaken. I was not at all personal in my remarks, and the gentleman assumes the whole matter and takes it to himself, when he was not in any way mentioned or intended. I did not refer to that man or his company at all. What I stated was the truth, but it did not relate to this man or the company he represents.

No. 265. By Mr. W. W. Williams: Petition of the homeopathic medical society of the State of Michigan.

On demand of Mr. W. W. Williams,

The petition was read at length, and spread at length on the Journal, as follows:

To the Senate and House of Representatives of the State of Michigan in Legislature assembled:

Your petitioners, the members of the homeopathic medical society of the State of Michigan, now in annual convention at the city of Lansing, do hereby represent and petition as follows:

They have carefully, by specially appointed committee, and the committee of the whole, examined and discussed bill No. 253, being Senate substitute for House bill No. 518, (file 178), entitled "A bill to provide for the registration of physicians and surgeons, and to protect the people of the State of Michigan from empiricism and quackery, and to repeal act No. 167 of the session laws of 1882, entitled 'An act to promote public health.'" Your petitioners respectfully show:

First, The aforesaid bill, instead of protecting the people of this State from empiricism and quackery, must necessarily defeat its avowed object by taking out of the hands of the people themselves the right and power to say what constitutes empiricism and quackery, and by placing this power in the hands of a board composed of medical men who are not only strongly prejudiced against all physicians holding opinions unfriendly to their own, but who, as business men, are naturally influenced by the common business principles, regulating and directing competition in business.

Second, It comes under the head of class legislation in that it provides for the organization of a Board of Medical Examiners of whom a majority will be members of the so-called regular school of medicine, thus placing in the hands of one school of physicians the absolute power to shape the policy of the board, and to do gross injustice to physicians whose teaching and practice are obnoxious to the majority on the board.

Third, The language of the bill is sufficiently ambiguous to allow the enactment of unjust and oppressive regulations, without any recourse whatever until the next session of the Legislature of this State;

Fourth, Its provision that the examiners in anatomy, chemistry and surgery shall be members of the so-called regular school of medicine is equal to a declaration that homœopathic physicians are not qualified to furnish able examiners in these branches. In view of the fact that these branches are as fully and ably taught in homœopathic medical colleges as in those controlled by the so-called regular school, this provision is utterly uncalled for, and implies an insult to qualified practitioners of medicine, and citizens and taxpayers of this State;

Fifth, The bill is very liable to interfere with the constitutional rights and privileges of citizens, so far as it concerns their right to select physicians of their own free choosing, by placing it in the hands of the Board to debar from practice physicians who to them are obnoxious, even though said physicians may not only possess ample evidence of a sound and complete medical education, but by actual practice in a community, may have earned their full confidence and respect.

Sixth, The bill enables the Board to arbitrarily limit a physician to special

fields of practice, giving the majority of the Board absolute power to legislate against the minority, to the injury not only of the physician, but often placing in jeopardy the life of persons in immediate need of services which an available physician may not be able to render without deliberate violation of the enactment proposed to be made.

Seven, Your petitioners are heartily in favor of any legislation which promises to benefit the people of this State, and to elevate the standard of medical education and the qualification of physicians for practice, and will at all times loyally support any wise measure in that direction. They are equally firm in their conviction that the Senate bill No. 253 can not possibly accomplish this object, but will do great injustice to the people of this State, and to a very large number of successful practitioners of medicine; and that its whole tenor is such as to nourish and foster that class legislation which is utterly opposed to the genius of American ideas and principles.

Your petitioners therefore pray that the said bill may not pass.

And your petitioners will ever pray, etc.

No. 1267. By Mr. Cannon: Memorial of citizens' meeting of Saginaw City.

On demand of Mr. Cannon,

The memorial was read at length, and spread at large on the journal, as follows:

Resolved, That the Citizens' committee be directed to present to the House of Representatives, now in session at Lansing, the following memorial:

To the Honorable, the House of Representatives of the State of Michigan:

The People of the City of Saginaw in mass convention assembled respectfully, but most earnestly, protest against the passage of any measure, either by original bill or by amendment to our charter bill, now pending before the House of Representatives, having for its object either the present or future consolidation of our city with the city of East Saginaw. And as we are without direct representation in your House and dependent wholly upon the generous efforts of those upon whom we have no legal claim, we avail ourselves of this method of presenting for your intelligent consideration some of the many reasons that impel us to appeal to the justice of your Honorable Body.

First, Where the business center is established is in fact the real city—the business center of the two cities are over two and a quarter miles apart, separated not only by the Saginaw river, but by natural conditions that will forever preclude their growing together; and if placed under one city government, one must sooner or later yield to the other, to the irreparable loss of those whose permanent investments have made the city—a result that necessarily must be followed by a ruinous reduction of all real estate values in the city that loses its entire business—a fact that is abundantly proved by the condition of the property in what was formerly South Saginaw. The consolidation of that village with East Saginaw, both on the same side of the river and under circumstances naturally less unfavorable, having wholly destroyed it as a business center.

Second, Since the first organization of the two cities they have been separate and distinct municipalities, and all business and investments therein have adjusted themselves to this condition. Each has, and of necessity must continue to have its separate system of water works, gas works, electric lights, and sewage system. Our school system has been the pride of our people, built up and maintained in a most liberal manner, and to deprive us of its control or subject it to the control of any other than those who built it up and are interested therein, would be an act of gross injustice.

Third, Some twenty years ago our people, in order to preserve their investments here threatened by a removal of the county seat, built a county jail at an original cost of \$30,000, and the ultimate cost of \$60,000, including interest actually paid on the loan—and recently, under a similar threat, our people have built a court house for the county of Saginaw at a present cost of \$100,000, upon which we will have other larger sums of interest to pay. The wisdom of this large investment has been amply shown by the rapid growth of the business of our city, and the substantial business improvements and investments since then; all of which would be lost to us by consolidation. Had we supposed that there could be any future question of our retaining our separate identity as a city, our people would never have assumed these burdens, imposed upon themselves only that they might be permitted to pursue their own course in peace, without being subordinated to the condition of a ruined suburb of another city.

Fourth, We have our own railroad, telegraph and express systems, with stations and offices established with reference to our business and the accommodation of our people; all of which will be subject to change under the readjustment of business that would necessarily follow consolidation.

Fifth, It is a conceded fact that private business establishes itself at the point where the public business is transacted—in a city, where the city offices are kept, and the public disbursements are made—in short, where the city government is established; and it is equally certain that the city government would be located, and the city business all transacted where the larger population of the east side would be accommodated. Under the assurance that our city had passed the period of danger by which its early growth had been materially checked—and believing that good faith warranted us in assuming that our city was no longer to be vexed with a threat of a removal of the county seat, or by our forcible consolidation with East Saginaw, which in our neliberate judgment would be still more disastrous, our people have made large business investments here, all which would be ruined by consolidation with another people, superior in number, and whose business interests, because of locality, are naturally in rivalry with ours.

Sixth, Consolidation would result in one central post office with some system of delivery, by messengers or otherwise, of mail for our people, which would reach them from two two ten or more hours later than at present. Under the best system of delivery that could be maintained we could not expect more than two mail deliveries a day, where we now have fourteen mails each day arriving and departing from our business centre, a changed condition that would of itself be ruinous to any business carried on here in competition with business on the east side of the river, having prompt mail facilities. Moreover the people of a large section of country around our city receive their mail matter here, and have thereby contracted business relations with us, to the mutual profit of each. Under consolidation these people would have to go to the central post office for their mail, and their business would be lost to us and diverted to the east side of the river, as would be the case with all business flowing from business with the departments of the city government, all which would speedily result in such diversion of business as to destroy the value of our business property, and in the ruin not only of those who have put the savings of a life-time into such property, but in like manner destroy the market value of every homestead in the city; as our property would be removed, so to speak, from the business center of the city, its value would decrease in proportion to the distance therefrom.

Seventh, In order to make our homes desirable and valuable, and to retain our independence as a city, and to establish our business center as now located, we taxed ourselves and have paid \$100,000 to the J., L. & S. R. R. Co. in aid of its road, and to induce it to establish and maintain its principal depot and offices at our business center; and upon the faith thereof our people have made their investments here, that would be ruined by consolidation. To the same end, and to preserve our business, and our investments made in building up the city, and to put at rest the question of consolidation, as well as that of the removal of the county seat, a result that would follow consolidation, we have built, as before stated, for the county a jail and a court house at a total cost to us of over \$160,000. This large sum we believe was wisely expended if we can be permitted to enjoy its benefits, unvexed by any scheme of consolidation that would surely deprive us of them; and we are prepared to make further similar sacrifices for the public good if we are permitted to enjoy what we have paid for, and what rightfully belongs to us.

Eighth. While it is certain that the general public good, and especially the conditions of the public health of our city, will be promoted by including within our city limits, subject to our control, that portion of Carrollton known as Florence, as its contiguity and situation make it naturally a part of our territory, and the only practicable outlet for sewage to the river from a large part of our city, and while we understand the question of so including it was, by all parties interested, left to be determined by your special committee appointed to personally examine the locality, and now that such examination has been made, and we are content to abide by their decision, and the sense of justice of the House of Representatives, we protest coupling with it the condition of consolidation, which would deprive us of the advantages we now rightfully possess.

We show to you that our city debt is only \$251,000 for which we have valuable permanent public improvements of the value of nearly four times that sum; that the debt of East Saginaw is out of all proportion larger than ours—that the river will always compel the maintenance of two separate systems

of water works, of fire protection, of gas, of electric lights, of police, of schools, where conflicting interests would lead to constant controversy, and the unfortunate, but natural rivalry of our situation that now disturbs us only occasionally, would be a constant source of disturbance that would render our situation intolerable.

Therefore in the name and behalf of our 16,000 people we earnestly protest against this most unnatural alliance, and trust the honorable House will not impose upon us a consolidation that would be destructive of our property interests, and of all we value as citizens of Saginaw, by depriving us of the control of our own affairs, and the preservation of our property. May we not safely appeal to the House not to deprive us of the American right of home rule.

The bill was then referred to the committee on engrossment and enrollment for enrollment.

The Speaker also announced the following :

SENATE CHAMBER, }
Lansing, May 26, 1887. }

To the Speaker of the House of Representatives :

SIR—I am instructed by the Senate to re-transmit the following bill :

Senate bill No. 235, entitled

A bill to incorporate the city of Marine City, in the county of St. Clair, and repeal act No. 328 of the local acts of 1885, approved April 23, 1885, entitled "An act to re-incorporate the village of Marine City, in St. Clair county,"

In compliance with a request of the House for the same this day received.

Very respectfully,

LEWIS M. MILLER,
Secretary of the Senate.

Mr. Snow moved to reconsider the vote by which the House refused to pass the bill, the objections of the Governor notwithstanding.

Pending which,

Mr. Rumsey rose to a question of order, and objected to the consideration of the motion to reconsider, on the ground that such action was contrary to the constitution of the State of Michigan, in that section 14 of article 4, must be regarded as final on that point. Said section reads as follows :

"Every bill and concurrent resolution, except of adjournment, passed by

the Legislature, shall be presented to the Governor before it becomes a law. If he approve, he shall sign it; but if not, he shall return it with his objections to the House in which it originated, which shall enter the objections at large upon their journal and reconsider it. On such reconsideration, if two-thirds of the members elected agree to pass the bill, it shall be sent with the objections to the other House, by which it shall be reconsidered. If approved by two-thirds of the members elected to that House, it shall become a law. In such case the vote of both Houses shall be determined by yeas and nays and the names of the members voting for and against the bill shall be entered on the journals of each House respectively."

The Journal of this House shows that the Governor did not approve the bill, but on the contrary vetoed it. He has but one veto. In the second place, the Journal shows that the House failed by its vote to approve the bill, two-thirds of the members not voting therefor.

The constitution does not make provisions for such action as is here contemplated by this motion to reconsider the vote which failed to pass this bill, the objections of the Governor to the contrary notwithstanding, nor are there precedents to be found in the records of our Legislature for this motion, and it is not competent for a rule of the House to take precedence over the plain meaning of the constitution.

Would it be held by the chair that if the bill had been passed by the House, the objections of the Governor notwithstanding, a motion to reconsider that vote would have been in order, and competent for the action of the House?

The Speaker decided that inasmuch as the vote now proposed to be reconsidered was taken in a manner expressly provided for by the constitution of the State, and having been thus taken, the decision must be considered final, and no motion to reconsider is in order.

Whereupon it was ordered that the bill be again returned to the Senate.

The Speaker also announced the following:

SENATE CHAMBER, }
Lansing, May 26, 1887. }

To the Speaker of the House of Representatives:

SIR—I am instructed to return to the House the following bill:

House bill No. 307, entitled

A bill granting the common council of the city of Kalamazoo power to vacate alleys within the corporate limits of said city,

PRESENTATION OF PETITIONS.

No. 1273. By Mr. Watts: Petition of 422 citizens of Jackson county asking for municipal suffrage for women.

On demand of Mr. Watts,

The petition was read at length and spread at large on the journal as follows:

To the Senate and House of Representatives of the State of Michigan:

The undersigned citizens of the county of Jackson, believing that taxation and representation should go together, that rights and burdens should always correspond with each other, and as we know taxation without representation was the ground of complaint with our fathers, it being claimed that it was tyrannical and oppressive. On it was based the war of the revolution. It was the pretext of a seven years' bloody conflict with the mother country, and caused our separation from it. The same cause for rebellion exists to-day. For more than a century the nation has attempted to stand upon the same injustice which inaugurated the war of 1776. Therefore we most respectfully petition your honorable bodies to grant to female taxpayers the same rights of suffrage granted by the statutes and laws of Michigan to the males.

Referred to the committee on elections.

No. 1274. By Mr. Hoobler: Petition of John Bullock and many others asking permission to bond their township of Deep River in Arenac county.

On demand of Mr. Hoobler,

The petition was read at length and spread at large on the journal, as follows:

Sterling, Mich., May 9, 1887.

To the Honorable the Senate and House of Representatives of the State of Michigan, Lansing, Michigan:

Your petitioners would respectfully represent that they are residents and freeholders in the township of Deep River, county of Arenac, and State of Michigan.

Your petitioners would further represent that the said township is embarrassed by outstanding obligations of the town issued for construction of

highways in said township amounting to three thousand dollars (\$3,000) or thereabouts, of which one thousand dollars (\$1,000) is in a bond due December 15th, 1887; two thousand dollars (\$2,000) or thereabouts, is in highway orders, part due; that these orders were issued in good faith by the different highway commissioners to the full amount of the taxes levied, but of which a considerable part have never been paid and now stand as a credit to the township, amounting to three thousand dollars (\$3,000) or thereabouts in delinquent taxes drawing interest.

Your petitioners therefore respectfully pray that the said township of Deep River be authorized by law, by a vote of the electors of said township, at a special election to be called by the township board thereof, to issue and negotiate the bonds of the said township to the amount of three thousand dollars, in such denominations as may be determined and designated by said board, payable within ten years, at a reasonable rate of interest. The money arising from the sale of said bonds to be used in extinguishing the aforementioned obligations. And your petitioners would ever pray.

PRESENTATION OF PETITIONS.

No. 1275. By the Speaker: Memorial of E. F. Conley relative to homestead exemptions in case of estates of deceased persons.

The memorial was read at length, and spread at large on the journal, as follows:

Detroit, Mich., May 28, 1887.

Hon. D. P. MARKEY, *Speaker of the House of Representatives:*

DEAR SIR—I beg leave to call your attention, and through you the attention of the House to House bill No. 577 (file No. 413), as reported by the committee on judiciary in the form of a substitute for the bill as originally introduced.

The matter involved in the bill is one of much importance, and deserves the serious and immediate consideration of the Legislature. The subject was

first called to my attention some years ago through a litigation in which I was professionally engaged, and again called to mind by the supreme court of this State through an opinion lately rendered by that tribunal.

When in 1848, the Legislature provided for the exemption of a homestead of a prescribed value and quantity, they failed to make provision for cases wherein it should be found that the homestead exceeded the legal limit of value and was incapable of reduction in quantity so as to leave with the dwelling a homestead not exceeding in value that prescribed by the statute.

When the present constitution of this State was adopted, the homestead exemption was incorporated therein, but without provision for cases of the nature just described.

This defect was noticed by the supreme court in the case of *Beecher vs. Baldy*, 7 Mich., 488, wherein that court held that if, when reduced as far as it was divisible, the homestead still exceeded the value of fifteen hundred dollars, it was not one of the homesteads described in the constitution as exempt, and could not be exempt by the operation of that instrument alone, and that further legislation was necessary in order to secure to the debtor fifteen hundred dollars out of the proceeds of the sale of a homestead exceeding in value that amount.

This case was decided in October, 1859. In 1861, the Legislature provided for the exemption of fifteen hundred dollars in money, in cases of sale on execution, but omitted to provide for any other case.

Some years ago, as indicated above, I insisted, in a proceeding in the probate court of this county, that when a homestead exceeded in value the legal or constitutional limit of fifteen hundred dollars and could not be reduced in quantity so as to leave a homestead within that limit, it was not exempt from sale under the order of the probate court, and that in such case there was no exemption of fifteen hundred dollars in money from the proceeds of such sale. The probate judge ruled adversely, as also did the circuit judge on appeal. The parties whom I represented were unwilling to press the matter further and it stopped at this point.

Within the present year, the question was discussed and decided by the supreme court of this State, and until we have further legislation the rule of law will be that in proceedings for the sale of real estate to pay the debts of deceased persons, a homestead of the constitutional value cannot be retained from the proceeds of such sale for the benefit of the widow or minor children of the deceased.

The substitute for House bill No. 577 (file No. 418), as recommended by the committee on judiciary, fully meets this emergency.

I beg leave, therefore, to recommend most earnestly the prompt passage of this bill. If you think best you can present this communication to the House, and with their leave have it spread upon the journal.

By the way, the sixth word in the eleventh line of section two should be changed from 'and' to 'that.' I remain,

Yours with great respect,

EDWIN F. CONELY.

Referred to the committee on judiciary.

SECTION 1. *The People of the State of Michigan enact*, That upon application by petition signed by one-fifth of the voters as shown by last preceding vote on Governor, who are qualified to vote for county officers in any county in this State, the county clerks shall call an election to be held at the places of holding elections for State and county officers, to take place within forty days after the receipt of such petition by said county clerk, to determine whether

or not intoxicating liquors as mentioned in section two of this act shall be sold within the limits of such designated county: *Provided*, That no election held under this act shall be held in any month in which general elections are held, so that such elections as are held under this act shall be separate and distinct from any other election whatever, and such question having been once submitted and decided by the votes of the electors, shall not be again submitted for a period of three years. The vote shall be by ballot, and the ballots shall be deposited in ballot boxes furnished for the purpose, and separate poll-lists and tally-sheets shall be kept. The county clerk shall provide poll-lists, tally-sheets and tickets for such election at each polling place, at the expense of the county. The ballots shall be cast and counted, and returns of the same shall be made from each voting precinct to the clerk of the county in which such election is held, in the manner now prescribed by law for the election of county officers. The clerk of said county shall enter in a book to be provided by him for that purpose, a tabular statement of the number of votes cast for and against such proposition in each voting precinct in said county, as shown by said returns, together with the aggregate number of votes cast for and against such sale in the entire county. Said statement so recorded shall be a public record of the county, and shall be *prima facie* evidence of the truth of the matters therein stated.

PRESENTATION OF PETITIONS.

No. 1276. By Mr. Webber: Memorial of the superintendents of the poor of Ionia county.

On demand of Mr. Webber,

The memorial was read at length and spread at large on the journal, as follows:

Ionia, May 28, 1887.

To the Hon A. J. Webber, member of the Legislature at Lansing, Mich.

It is with regret that we learn that a letter from Levi L. Barbour has been read before the Legislature censuring the management of the Ionia county poor-house which we verily believe and know to be *untrue* in the impression it is calculated to produce in the State and unjust to Ionia county in particular.

The superintendents of the poor of our county have ever tried to do the best they could under the circumstances for those under our care and to that end we have always thought we were fortunate in securing the services of Mr. L. Carpenter and wife as keepers of the county house, and not only the superintendent but may of our most influential citizens, a few of whose opinions are copied below, are of the same opinion, and many more we can give if necessary.

In the letter referred to Mr. Levi L. Barbour says the girl referred to was kept locked in a room and was entirely naked, and that the window to the room was where all passers-by could look in. Now this is an old chestnut started in 1863, and Mr. B. H. Preston, then member of the board and secretary, in reply says, "I would here ask what is expected with this class of inmates who tear off their clothing; must a constant attendant be provided for each one of them. This open barred window would surely ventilate the room, and being on the back part of the female department would not be visible to any one but those of her own sex." The back yard has a tight high fence dividing it, so that the male inmates do not frequent the part used by the females. But the girl was not kept locked in that room only at times when her clothing, what had not been torn off, wanted changing or when she had one of her bad spells which she was subject to at times. At the time referred to the girl had been doing her business for the third time for that day, which having done, she would always when she could, daub her clothes all up so that Mrs. Carpenter had ordered a girl to look after her and have her clothes taken off except her chemise, until they could get her clothes ready to put on; if she was naked she had torn her chemise off. It is well here to say that she was never in there but a short time at once and that in the day time as at night she slept with another inmate who looked after her.

When the board were there and came to that door Mrs. Carpenter hesitated about letting them in, as she well knew the girl was not in a proper condition to be seen by gentlemen, and it sometimes happens in our best regulated families that things occur that even State officials are not always wanted without an explanation, but they insisted upon going right in, so she let them, and they acted so *ungentlemanly* that she did not explain anything except about tearing her clothes, and they asked for no explanation whatever. It is well here to say that this girl would always get at the slop pail if she could, as she has no more sense than a beast. As to her being in the habit of playing with the little girl of the keeper, that is a mistake. As to her talking, she tries to say a few words but never anything intelligible to those that have the care of her. As to her ever being made useful for anything, that is a myth. With such a subject it is not to be wondered at if at times the place such a person is kept in does smell unpleasant, as it is necessary to fumigate rooms that sane people are confined in sometimes. The brother to this girl is an idiot also, but still has some more show of sense than the girl. They said he was shut up in a tight board pen in the sun. The pen is tight on all sides but the north and that is barred, and is 20 feet square and 10 feet high, the height of it gives a protection from the sun. But the facts are it rained in the forenoon and he was not put in until after the rain, and never was put in there only in pleasant weather. The yard was built by direction of Dr. Pray, ex-representative, who was our physician at the time, and the yard was used to put the insane or idiotic in for exercise on pleasant days, and that is what is was used for.

In conclusion we would say that we think that it has ever been the aim of

both superintendent and keeper to do all we could for the unfortunate that are under our care, but still we at times may each and all have failed, but it is with us as it is with some other county houses, our house is not perfect for the purpose it was designed for. It would seem that the board of corrections and charities might be able to give good advice as to the best methods of managing those institutions if they were working for the good of the State and humanity and not for *official capital*, and it looks as if it was the latter, as they in this instance entirely ignored the superintendent and found their fault through the press.

Yours respectfully,
 FRANK C. SIBLEY,
 LABAN A. SMITH,
 THOS. E. SMITH,
Superintendents of Ionia County.
Ionia, May 30, 1887.

Hon. A. J. Webber:

DEAR SIR,—As there is more or less being said about the management of our county poor-house, I have this to say: For the last four years, at least, I have had occasion to and have frequently visited said house and premises, and from my knowledge of it, and the way it is kept and conducted, I think with the conveniences and means that Mr. Carpenter and wife have that they do exceedingly well. I have always found it in better condition as to cleanliness and order, and the inmates in better condition than I should think they could be kept.

Yours respectfully,
 MYRON BALCOM,
Judge of Probate.
May 30, 1887.

Hon. A. J. Webber:

DEAR SIR,—I wish to say that my business being that of an undertaker, I have been several times every year to our county house, and have known Mr. Carpenter, the present keeper, quite well ever since he entered upon his duties there, and have always found the house kept in as clean and neat a manner as I believe it possible to keep such a place.

Respectfully,

GEO. H. ALLURED.

AFTERNOON SESSION.

The House met and was called to order by the Speaker.

Roll called: quorum present.

The House took up the order of

MESSAGES FROM THE GOVERNOR.

The Speaker announced the following:

EXECUTIVE OFFICE,
Lansing, June 2, 1887. }

To the Honorable House of Representatives:

Permit me most respectfully to direct the attention of your honorable body to Senate bill number 36 (file No. 140), being a bill making an appropriation for the use and maintenance of the university of Michigan, and now before me for consideration.

The policy heretofore maintained has been to admit to our State educational institutions students from other States and countries, and which policy under certain restrictions, I deem to be wise.

The practice, however, of opening the doors of those institutions to students from outside our borders, at but a slightly increased tuition over resident students, but at an actual cost to the State largely in excess of what is paid by them, is open to some question.

I also have before me at this time for consideration a bill making appropriation for the support of the State Agricultural College, and in which I find the following provision, namely: "*Provided*, That it shall be the duty of the State board of agriculture to fix such tuition fee for non-resident students as shall in its judgment compensate for the extra expense for accommodating such students."

At the latter institution I find the appropriation to be as passed by your honorable bodies, \$65,205, being about \$6,000 in excess of the appropriation two years ago, this sum being for a period of two years.

I also find in comparing the general and special appropriations for the university, met by direct tax for the last three biennial periods to be as follows:

1883-4. One twentieth mill tax.....	\$81,000 00
Homeopathic college.....	12,000 00
Legislative appropriations.....	62,900 00
Total.....	\$155,900 00
1885-6. One-twentieth mill tax.....	\$81,000 00
Homeopathic College.....	12,000 00
Legislative appropriation.....	107,500 00
Total.....	\$200,500 00
1887-8. One-twentieth mill tax.....	\$94,545 00
Homeopathic College.....	12,000 00
Legislative appropriation.....	192,565 94
Total.....	\$299,110 94

To each of the above totals should be added about \$60,000, being the interest fund biennially upon university lands.

The last catalogue of the university for the years 1886-7, shows of the total enrollment of students, 1572, that 791 are from Michigan, and 781 are from foreign States and countries.

The tuition per year for Michigan students being from \$20 to \$25 and for foreign students from \$30 to \$35 in addition to matriculation and diploma fees the total fees received during the last two years, approximating—Michigan students \$52,000, and from foreign students, \$78,000. It will thus be seen that the people of Michigan, with their 791 students in the university, are required to pay for the years 1887-8.

Total above found.....	\$299,110 94
University land tax.....	60,000 00
Michigan students' fees.....	52,000 00
Total.....	\$411,110 94

While 781 foreign students are reaping the same benefits and equal advantages for but \$78,000.

Were this in the line of other great educational institutions of the eastern States with which our university vies, the discrepancy might not be so apparent. But on the contrary we find Amherst College charging a tuition of \$110 per year, Yale \$140, Harvard \$150, etc.

I fully endorse the policy of charging our own students but a moderate tuition, but believe that it is not sound or wise policy to extend such privileges to students of other states or countries, at the expense of Michigan taxpayers, and with returns in student's fees so far below those charged by other first-class colleges.

Again, it seems quite unfair to require that tuition of non-resident students at one of our State educational institutions should be regulated by the additional expense they will cause, and not require the same of another. If the provision be a wise one at the agricultural college, as it is claimed to be,

I cannot see why the same provision would not be equally wise at the university and State normal school. If this were done, as I trust it will be, then the appropriation could be materially lessened without in any manner crippling the university, and which should be done.

In the message which I had the honor to present to the Legislature when it assembled, I said "We cannot afford to impair or cripple the usefulness of any of our State institutions. The educational, charitable and penal must be provided for, but the most scrutinizing care should be exercised in making appropriations." To this proposition I still adhere, though sharing in the pride which we have a right to feel in the high distinction our university has attained.

In the same message I had the honor to call your attention also to the appropriations asked for buildings in which to establish new specialties and branches at the university, and asked your earnest attention to the same, for reasons therein briefly given and which consideration I have no reason to doubt has been given. And yet I am of the opinion that the item of \$75,000 for new buildings and the equipment thereof could be greatly reduced and the university still maintain its high degree of efficiency.

It is therefore in consideration of these and other reasons that I most respectfully, though reluctantly ask your honorable bodies to recall the above bill that you may consider the advisability of making the changes therein, above suggested, in such manner as in your wisdom may seem proper.

Very respectfully,

C. G. LUCE, *Governor.*

PRESENTATION OF PETITIONS.

No. 1281. By Mr. Grenell: Memorial of Grand Haven K. of L., relative to the Grenell purity of election bill.

On demand of Mr. Grenell,

The memorial was read at length, and spread at large on the journal, as follows:

Grand Haven, Mich., May 26, 1887.

To the Honorable the Senate and House of Representatives of the State of Michigan:

In the interest of good government, Local Assembly No. 3441, Knights of Labor, situated at Grand Haven, Mich., respectfully petition your honorable body to enact into law "Grenell's bill to preserve the purity of elections and provide for a secret ballot."

If our republic is to be enduring we should throw around the ballot every

safeguard that wisdom can devise; the fabric of our government rests on the integrity of the ballot and the popular will should be freely expressed without interruption, intimidation or coercion at the polls.

We also petition for the passage of "Grenell's bill to prohibit the employment by corporations of aliens who shall not have declared their intention to become citizens." We believe that corporations should be prohibited from seeking cheap labor on the shores of foreign countries, and that the blessings and advantages of this country should be enjoyed by those who bear its burdens, and have foresworn allegiance to foreign princes and potentates.

We also petition your honorable body, for the enactment into law of "Ogg's bill to prohibit non-resident aliens from holding land in this State." The fate of Ireland should lead our legislators and statesmen to view with suspicion and alarm the absorption of the public domain by foreign landlords, syndicates and capitalists.

Twenty-one million acres of land are now being held by non-resident alien landlords in the United States, who will, if not repressed, establish a system of tenancy in this country as deplorable as that now existing in the Emerald Isle.

As American citizens we believe that the acquisition of land by non-resident aliens is pernicious and dangerous to the welfare of our free institutions.

For these reasons we respectfully urge the passage of the above mentioned bills.

Very respectfully,

FREDERICK SPROUSOR, *Master Workman.*

MARSHALL MASON, *Recording Secretary.*

Referred to the committee on labor interests.

SECTION 1. *The People of the State of Michigan enact*, That upon application by petition signed by not less than one-fifth of the voters of any county, as shown by the last preceding vote on Governor, who are qualified to vote for county officers in any county in this State, the county clerk of such county shall call an election to be held at the places of holding elections for State and county officers, to take place within forty days after the receipt of such petition by said county clerk, to determine whether or not intoxicating liquors as mentioned in section two of this act shall be manufactured or sold within the limits of such designated county: *Provided*, That no election held under this act shall be held in any month in which an election for State, county, city, village or township officers is held, and such question having been once submitted and decided by the votes of the electors, shall not be again submitted for a period of three years. Notice that such a question is to be submitted shall be given by the county clerk for the same time and in the same manner as is provided by law for giving notice of special elections for county officers. The vote shall be by ballot, and the ballots shall be deposited in ballot boxes furnished for the purpose, and separate poll-lists and tally-sheets shall be kept. The county clerk shall provide poll-lists, tally-sheets and a sufficient number of tickets for such election at each polling place, at the expense of the county. Those voters who wish the manufacture and sale of intoxicating liquors for use as a beverage prohibited, shall have printed or written or partly printed or partly written on their ballots the words, "Against the manufacture and sale

of intoxicating liquors," and those who do not wish such sale prohibited shall have printed or written or partly printed or partly written on their ballots the words, "For the manufacture and sale of intoxicating liquors." The inspectors of elections, as provided by law, shall act, and shall have authority to appoint assistants, if any shall be necessary. The clerk of said county shall enter in a book to be provided by him for that purpose, a tabular statement of the number of votes cast for and against such proposition in each voting precinct in said county, as shown by said returns, together with the aggregate number of votes cast for and against such sale in the elective county. Said statement so recorded shall be a public record of the county, and shall be *prima facie* evidence of the truth of the matters therein stated.

SEC. 2. That from and after the first Monday in May next, after such special election, it is hereby declared unlawful to manufacture, sell, give away, or furnish malt, brewed, fermented, vinous or intoxicating liquors of any kind, or in any quantity, or liquors, any part of which is malt, brewed, fermented, vinous or intoxicating, or to keep for sale or keep a place where such liquors are manufactured or kept for sale, given away or furnished, within the limits of any county in which a majority of the votes cast at the election next preceding, upon the question of prohibiting the sale of intoxicating liquors, as provided in section one of this act, have been cast against the manufacture and sale of intoxicating liquors; except where done by a druggist who is or who employs a registered pharmacist strictly in compliance with the laws for the regulation of druggists. And whoever, within such limits, himself, or by an agent, or otherwise, thus manufactures, sells, furnishes or gives away any such liquors, or keeps for sale, or keeps a place where such liquors are manufactured or kept for sale, given away or furnished, upon conviction thereof in any court of competent jurisdiction, shall be fined in any sum not less than fifty nor more than five hundred dollars, and be imprisoned in the county jail not less than ten days nor more than six months, or both, in the discretion of the court.

SEC. 3. MESSAGES FROM THE SENATE.

The Speaker announced the following:

SENATE CHAMBER, }
Lansing, June 9, 1887. }

To the Speaker of the House of Representatives :

SIR—I am instructed by the Senate to transmit the following bill:

Senate bill No. 36 (file No. 140), entitled

A bill making an appropriation for the use and maintenance of the university of Michigan,

Which bill passed the Senate April 9, 1887, and which passed the House May 25, 1887, as appears by its message of the same date returning said bill to the Senate.

Now to inform the House that the said bill was on the 6th day of June, 1887, returned to the Senate by the Governor without his signature, for the reasons set forth in his message of that date, as follows:

EXECUTIVE OFFICE, }
Lansing, June 6, 1887. }

To the Senate :

In compliance with the provisions of the Constitution, which authorizes the Governor to communicate and recommend such measures to the Legis-

lature as he shall deem expedient, I had the honor on the 2d inst., to communicate to both Houses some views entertained in relation to Senate bill No. 36, file No. 140, being a bill making an appropriation for the use and maintenance of the University of Michigan. There are many provisions of the bill which it would have afforded me pleasure to approve; yet, after a faithful consideration, others were found which seemed to me ought not to receive the Executive sanction, and the message was therefore sent with the sincere hope that the bill might be recalled, and such amendments made as would commend themselves to the Legislature, the Executive, the University, and the judgment of the people.

But as the Legislature has not complied with my respectful request, I can now but obey that other provision of the constitution which requires the Executive to return to the Legislature such bills as he cannot approve, without his signature, and ask a reconsideration at your hands. And in so doing I desire to disclaim any purpose of embarrassing the university. This institution has performed such an important part in our educational history that every citizen of Michigan must feel an honorable pride in its success. In returning the same, allow me to briefly append the following reasons among the many suggesting themselves for such action:

1. It is unjust to burden the taxpayers of our State to educate foreign students, and with inadequate returns in tuition from them. It is unfair that Michigan, with its 791 students, shall pay approximately \$411,110.94 during the next two years, and that 781 foreign students shall receive equal advantages there and pay only about \$70,000. The lands from which the university interest fund is derived belonged to us as our portion upon a division of the same among the States, and no citizen of another State has any more right to its benefits without recompense than to any other tax raised for other purposes.

All of the first-class colleges of the eastern States ranking with and even below the University, have found from long experience that they can, and do charge a tuition to foreign students many times larger than the University does. And, were the same provisions incorporated into the University bill, that the Legislature wisely, in my opinion, attached to the Agricultural College bill, viz: Requiring foreign students to pay such tuition as would compensate the State for extra expense incurred in their accommodation, then I believe the amount appropriated by this bill might have been materially lessened.

2. I am unchanged in my opinion that a greater part of the \$75,000 item asked for the purpose of an experimental and chemical laboratory, should be eliminated from the bill. That additions and changes should be made in the laboratory privileges is unquestioned, but I am thoroughly convinced that such additions as are seriously needed can be nearly or quite met by the funds received from the increase in tuition of foreign students above suggested and from the increasing one-twentieth mill tax, which will add \$13,000 to former receipts from this source during the next two years.

3. The University has arisen to its present high position with much less appropriations than is provided in this bill, and with no material change in the number of students. I find that during the last two biennial periods there was raised by general taxation for the support of the University, excluding the University interest fund, the following amounts, viz.:

1883-1884.....	\$155,900
1885-1886.....	200,500

While, if this bill becomes a law, it will be necessary to raise by taxation for such purposes the sum of \$299,110.94 for the next two years.

Believing that the permanent prosperity of the university will be enhanced by a material reduction in the appropriation provided in this bill, and that it will increase the confidence of the people, whose institution it is, in its wise, prudent and economical management, I do hereby respectfully return the same for your consideration.

C. G. LUCE, *Governor*,

And further to inform the House that the Senate has this day passed the said bill, by a vote of two-thirds of all the Senators elect, the objections of the Governor to the contrary notwithstanding, and by a vote of two-thirds of all the Senators elect has ordered the same to take immediate effect, and in all of which the concurrence of the House is respectfully asked.

Very respectfully,

LEWIS M. MILLER,

Secretary of the Senate.

The question being on the reconsideration of the vote by which the bill was passed, the vote was reconsidered.

The question being on the passage of the bill the objections of the Governor to the contrary notwithstanding,

On motion of Mr. Diekema,

The bill was laid on the table.

The Speaker also announced the following:

Ionia, June 13th, 1887.

To the Hon. Committee on State House of Correction, Lansing;

GENTLEMEN:—The undersigned officers of the S. H. of C. respectfully ask that your honorable body take from the table a bill introduced by Hon. A. J. The duties we perform and the hours on duty are as severe and long, the responsibility as great; and there is in our judgment no reason why we should not receive pay equivalent to the service rendered.

Most respectfully yours, etc.,

The following is the substitute reported by the committee for the second named bill:

A bill to regulate the charges permitted for the use of telephones, to prescribe the duties of those operating telephones and to prescribe penalties.

SECTION 1. *The people of the State of Michigan enact,* That no individual, company or corporation, now or hereafter owning, controlling or operating any telephone line or telephone exchange in this State, or furnishing any telephone service in this State shall maintain or operate the same, or receive for the use of such telephone service, any sum or sums of money except as provided in this act.

SEC. 2. Every individual, company or corporation owning, controlling or operating any telephone line or telephone exchange, or furnishing any telephone service in this State, shall be allowed to charge and collect for such service, an annual rental not to

exceed two dollars and fifty cents per month for each telephone furnished within a radius of one mile from the central office, and not to exceed twenty-five cents per month for each additional mile such telephone may be located from such central office in the same exchange.

SEC. 3. Every individual, company or corporation, owning, controlling or operating any telephone line or telephone exchange in this State, in lieu of charging an annual rental as provided in section two of this act, may charge and collect from every subscriber using a telephone, a fixed sum not to exceed twelve dollars per annum, in advance, when such telephone shall be within a radius of one mile from the central office, and not to exceed the sum of one dollar for each additional mile from such central office in the same exchange, the first year's charge to be paid when such telephone shall be in position, and ready for use in the subscriber's office, residence or place of business, as the case may be. In addition to such fixed charge, such individual, company, or corporation, may charge, and collect from, every subscriber who shall use his telephone in connection with the telephone of any other subscriber of the same exchange, to be paid at the end of each and every month only by the subscriber calling for and procuring the connection with such other telephone, the following rates of toll, namely: For each connection in any one month, up to and including thirty in number, five cents; for each connection above thirty and up to and including one hundred in number in any one month, two cents; and for each connection above one hundred in any one month, one cent; but in no case shall the charge in any one month exceed six dollars for one telephone within a radius of one mile, and twenty-five cents per mile more for each additional mile from the central office.

SEC. 4. Every individual, company or corporation, owning, controlling or operating any telephone line or telephone exchange, or furnishing telephone service in this State, must, within thirty days after this act shall go into effect, file with the Secretary of State a certificate, in which he, they or it elect whether he, they or it shall charge for telephone service in this State according to the method provided for in section two, or the method provided for in section three of this act, and whichever method shall be selected, must be preserved with all the subscribers in the State while such method is pursued. The method adopted in said certificate shall not be changed for the other method until such individual, company or corporation shall file with the Secretary of State another certificate indicating such change, and give each subscriber in the State ninety days' notice of such change. The Secretary of State shall charge a fee of one dollar for the filing of each certificate filed according to this section. Where the subscriber of a telephone is a firm, company or corporation, the charges in either method shall be the same as where the subscriber is a single individual.

SEC. 5. Where any two cities, towns or villages are connected by wire owned or operated by any individual, company, or corporation, and furnishing telephone services between such two cities, towns or villages, the price for the use of any telephone for the purpose of conversation between such cities, towns or villages shall not exceed fifteen cents for the first five minutes, and for each additional five minutes no sum exceeding five cents shall be charged.

SEC. 6. Every individual, company or corporation furnishing telephone service, as provided for in section three of this act, shall, before charging or collecting any money whatever from any subscriber or user of a telephone in this State, provide, without any expense or charge to such subscriber or user, a suitable device or meter, which shall correctly and accurately register, and plainly indicate to the subscriber or user of such

telephone the number of each connection made for such subscriber or user, and the number of connections to be charged to and paid for by any such subscriber or user for each month shall be the number shown by such device to have been by him procured during such month.

SEC. 7. Any individual, company or corporation owning, controlling or operating any telephone line or telephone exchange in this State may establish and maintain telephone stations for the use of the general public not to exceed one in any block or square in any city, village, or town. A toll-rate of not to exceed five cents for each conversation of five minutes held between a patron of such station and a person using some other telephone in the same exchange may be charged and collected.

SEC. 8. Whenever any individual, company or corporation owning, controlling or operating any telephone line or telephone exchange in this State shall permit their wires or instruments or other apparatus to become impaired in such manner as to prevent conversation between two instruments when connection between them is made, and notice of such fact shall be given to the central office, if the exchange shall be operating under section two, the annual rent shall cease until necessary reparation shall be made; and, if operating under section three, no toll-rate shall be charged for any connections where conversations could not be obtained on account of such impairment of wire or instrument.

SEC. 9. Any individual, company or corporation, or operator or agent thereof, who shall charge, collect or receive for the use of any telephone from any person any sum in excess of the rates fixed by this act, or shall charge, collect or receive money from any person for telephone service, under any different method than those provided for in this act shall be deemed guilty of extortion, and upon conviction thereof shall be fined not less than fifty dollars, nor more than one hundred dollars for each offense, to be collected in an action of debt, before any court of competent jurisdiction; all fines collected under this act to be paid into the school fund of the county wherein the offense is committed.

PRESENTATION OF PETITIONS.

No. 1296. By Mr. Dickson: Memorial of the Eclectic Medical and Surgical Society of Michigan, relative to Senate bill file No. 253.

On demand of Mr. Dickson,

The memorial was read at length and spread at large on the journal as follows:

OFFICE OF THE STATE ECLECTIC MEDICAL AND
SURGICAL SOCIETY OF MICHIGAN,
Dowagiac, May 25, 1887.

To the Honorable House of Representatives of Michigan:

This society at its annual meeting held in the city of Jackson on the 18th and 19th of the present month, adopted by unanimous vote the following resolutions, presented by the committee on legislation:

RESOLUTIONS.

Whereas, There is before the legislature of the State of Michigan a bill (Senate bill, file No. 253), to regulate the practice of medicine, that, on its face, bears evidence of unfairness in its special features, inasmuch as it

recommends an examining board to be composed of eleven members, seven of whom shall be, presumably, appointed from the old-school or so-styled regulars, and two each from the homeopathic and eclectic schools. It also provides that the members from the latter two schools shall examine only in materia medica and the practice of medicine: Therefore be it

Resolved, That to this society this seems to represent clearly that the real intention of the bill under consideration is to give virtually the whole matter into the hands of the so-called regular school of medicine, as they would have a clear majority over all. Even if they should not, they would have the power, as the bill now is, to exclude any applicant they might see fit, though passed upon favorably by the other members of the board, who only could examine in the two subjects heretofore mentioned. As a society we protest against this exclusiveness, smacking as it does of selfishness, ostracism and partiality by our old-school brethren, and while we do not especially object to a bill fair in its provisions and aiming to elevate medical training, we cannot but enter a protest against anything looking like class legislation, or that may favor one school to the exclusion of another. We believe, however, that no law creating a medical board of censors is just now called for, or if so, that a plain law compelling all persons desiring to practice medicine in Michigan to unite with one of the State medical societies whose censors shall examine them and if qualified, admit them; if not, reject them, would be preferable. This, it seems to us, would meet all requirements, as the three schools of medicine in Michigan have each well ordered medical societies.

Resolved, That our Secretary be authorized to furnish each house of the State Legislature, and the Governor of Michigan, copies of these resolutions."

PRESENTATION OF PETITIONS.

No. 1298. By Mr. Rumsey: Petition relative to record of mortgages.

On demand of Mr. Rumsey,

The petition was read at length, and spread at large on the journal, as follows:

To the Honorable the House of Representatives:

The Senate bill No. 119, file 263, provides for a system of keeping records of mortgages in counties, by county registerers, by assessing districts, in lieu of the present promiscuous recording system. The expense for books promises in the end to be much less, and the trouble of keeping the records will be no greater. The advantages of the system entitle it to the highest appreciation as an economic measure. Those having business with the office of the register, will be greatly benefitted. Information as to titles, as to township indebtedness, and for purposes of taxation, will be certainly and readily had, and a far greater amount of property will be reached for taxation. We earnestly pray that the bill do pass.

1299. Petition of J. A. Park, city assessor of Lansing, on the same subject.

On demand of Mr. Rumsey,

The petition was read at length, and spread at large on the journal, as follows:

LANSING, MICH., June 16, 1887.

To the Hon. The House of Representatives of Michigan:

Your petitioner respectfully prays of your honorable body that you do pass Senate bill No. 119, file No. 263. And your petitioner most respectfully begs leave to submit for the candid consideration of your honorable body the following as some of the reasons why the bill should pass:

The present tax law requires all mortgages to be taxed to the holders thereof, and your petitioner, the city assessor for the city of Lansing, finds himself utterly

unable to obey the law, because of a lack of facilities to obtain information as to who are the holders of but a very small per cent of taxable mortgages. We hold it to be unjust that the few should be taxed and the many escape. The bill is intended to provide a remedy for existing evil. The present law requires all records to be kept by counties, in and for counties. They are now promiscuously recorded; for instance, a mortgage, *one* hour, is recorded upon lands in one township and in another, in the same book, upon lands in *another* township, and in another hour upon the lands situated in still another township, so that in course of time the records come promiscuously mixed up in hundreds of books so that for an assessor to find out what mortgages which are recorded in these books, are properly taxable to residents of his district would require months of research, in addition to a knowledge of books and records which ordinary assessors do not have, therefore the present law requires what can not be and what is not performed.

The result, therefore, is the leaving out from the assessment books of an immense amount of property which the law says is taxable with the result of unlawfully increasing the burdens of taxation upon the property that is taxed. *In lieu of the present promiscuous system of keeping records*, the bill provides for the furnishing of books for each assessing district, wherein shall be recorded all mortgages, which are upon lands situated within that district. This does not interfere with the county record system—it does not require of the register to make a single additional record, but only to so record the mortgage instruments that each assessor will find those which the law requires him to tax in a book or books *exclusively* relating to the district of which he is assessor. The marginal notices which the bill provides to be made at the right hand of each recorded instrument is simply in the nature of an index from the record of one instrument to that of another which affects the title to the same piece of property—the name indexes always furnishing keys through which the register may refer back to the previously recorded instrument, which the one in hand affects. During the year last passed, in the county of Ingham, some 800 or 900 mortgages were recorded. This will give an idea of the number of mortgages that would be recorded in the new set of books during the first year, and it may be inferred that during the course of four or five years a large majority of the mortgages in force would be found in the new books.

It will be seen how simple a matter it will soon become for every assessor throughout the State of Michigan to know exactly who are the holders of mortgages upon the property of his district. The bill provides that each assessor annually, in April, send his name and residence to the Secretary of State, that the Secretary of State publish the list, sending a copy of the published list to each assessor in Michigan. Now, then, each assessor having these lists is thereby enabled to notify any assessor in the State of any mortgage taxable in such other assessor's district, for the bill provides that no mortgage shall be recorded which does not give the residence of the mortgagee. There is therefore established a complete system of exchange of information between all of the assessors of the State. They are brought into relations of harmony and acquaintance with each other and are enabled to exchange views, out of which a most complete, thorough and equitable system of taxation may be very reasonably looked for, with the final result of including almost (who shall presume to say otherwise) as much again property upon the tax books as we have at present, whereby the rate of taxation may very probably be reduced fifty per cent. The advantages which are to grow out of the system inaugurated by this bill are

simply enormous, while it has the other advantage of affecting the great change at a saving in expense as against our present cumbersome and incomprehensible system. A few more books will be required in the start than under our present system, but now we have no classification; we annually lose in taxes hundreds of thousands of dollars because we do not keep our records in shape to furnish us with information whereby we may save the money.

We do worse than save at the spigot and lose at the bung. When we stop to think of it, our present system of mixing our records all up is simply ridiculous. We undoubtedly should have just what the original bill (file No. 164) provided, but this half loaf is so much better than the old system, that the masses of the people, the industries, the business, will ever be thankful for the easy and certain relief which it gives them, and they will be sure to turn their attention to see that the other things which are necessary to complete the system will soon become the law. Then when we have arranged the thing for our own people, the other states will follow, and soon we may hope to have an interchange of information between states and a universal system of the means to bring about equal taxation in the United States.

And the prayer of your petitioner is that the bill may pass.

Most respectfully,

JAMES A. PARK.

The two petitions were laid on the table.

Mr. W. A. Baker offered the following:

WHEREAS, The President of the United States having approved the recommendation that all the battle flags in the custody of the war department, belonging to the Southern States in rebellion during the late civil war, be returned to the respective States which bore them for such final disposition as they may determine,

AND WHEREAS, This is the first attempt since the close of the rebellion by the representative of any nation to recognize the confederate States as such and their rights to hold or claim property lost in the war,

Therefore, be it resolved, By the House of Representatives of the State of Michigan (the Senate concurring), That this Legislature views with surprise and disfavor the action of the President in favoring the return of these "emblems of treason" to the extinct governments which they represented;

And be it further resolved. That the Governor of this State be requested to ask the President in behalf of the People of the State of Michigan to have said order rescinded.

Every railroad company formed under this act or any former act, and every corporation owning or operating any such railroad, shall erect and maintain in effective condition of repair fences on each side of the right of way of their respective roads, as hereinafter provided. A legal railroad fence shall not be less than four and one-half feet high, and shall be made of boards and posts in combination as follows: The boards to be of pine or hemlock, six inches in width and sixteen feet in length; the posts to be of cedar, tamarack, or oak, not less than seven feet in length and six inches in diameter, to be set not less than two and one-half feet in the ground at a distance apart not more than eight feet from center to center.

First a board shall be nailed to the posts close to the ground; five inches above such first board, a second; six inches above the second, a third; six inches above the fourth, a fifth; all to be capped with a like board securely nailed to the fifth board and to the posts. All the boards to be firmly nailed to the posts with not less than two eight or ten-penny fence nails at each post. Or it may be constructed of posts, boards and wire in combination as follows: The posts shall be of cedar, tamarack, or oak, not less than seven feet in length and six inches in diameter, to be set not less than two and one-half feet in the ground, at a distance apart of not more than eight feet from center to center. At a height of sixteen inches from the ground a pine or hemlock fence board six inches in width, and seven inches above such first pine or hemlock board; second of the same width; both boards to be firmly nailed to the post with two eight or ten-penny fence nails at each post. At the height of five inches from the ground a barbed fence wire, and at ten inches from the ground a second barbed wire; forty-four inches from the ground, or nine inches from the second pine or hemlock board, a third barbed wire; and fifty-three inches from the ground, or nine inches above the third barbed wire, a flat Brinkerhoof strip, or some other metallic strand of similar pattern; or it may be constructed [with such posts and set as above prescribed and made] as follows: At a height of six inches from the ground a barbed fence wire; at thirteen inches from the ground a second barbed wire; at twenty inches from the ground a third barbed wire; at twenty-eight inches from the ground a fourth barbed wire; at thirty-seven inches from the ground a fifth barbed wire; at forty-eight inches from the ground a six inch pine or hemlock fence board, capped with a six inch pine or hemlock fence board. All inequalities of the ground under the fence to be surfaced and leveled so that no animals can pass under the lower strand: *Provided*, Any railroad company that has already erected fences along the line of its road shall not be required to construct the fence herein provided for [unless after complaint under oath to the commissioner of railroads, the said fence is decided by him to be sufficient.] Such right of way fences shall be provided with suitable connecting fences and cattleguards at all highways and street crossings, which shall at all times be kept in effective repair and sufficient to prevent stock of all kinds from passing upon the track of the railroad at such highway or street crossings. Convenient farm crossings shall also be constructed by any such railroad corporation across the right of way and track of its railroad, with the necessary gates or bars therefor as the owner or occupant of the premises may erect, at the sides of the right of way, which said gates or bars shall be of sufficient width to admit the free and easy transportation of all farm machinery, including harvesters or binders, in form as the same are usually drawn, upon the application of the owner or owners of land lying upon both sides of such railroad track, the same being enclosed by exterior fences, and being adjacent to such right of way. And in case of disagreement between the owner of any such lands and the railroad corporations as to the necessity for, location of, or character of farm crossing so applied for or as to the plan or construction of the gates as herein provided, then either party may present the matter in dispute to the commissioner of railroads, who shall proceed to investigate the same as soon as may be, and render his decision thereon, which shall be final and binding upon the parties respectively; and such farm

crossings shall be constructed within the time prescribed by the said commissioner of railroads, under a penalty of ten dollars for each and every day that such construction of the farm crossing shall be delayed beyond the expiration of the time fixed for its completion by the said commissioner of railroads. And until such fences and cattle-guards as hereinbefore provided for shall be duly constructed, the company or corporation owning or operating such road shall be liable for all damages done to cattle or other animals thereon which may result from the neglect of such company or corporation maintaining or operating such road to construct and maintain in repair such fences and cattle-guards as aforesaid, to be recovered by the owner of such cattle or other animals in a civil action before any court of competent jurisdiction, together with an attorney's fee of twenty-five dollars, to be taxed as costs against the defendant in case of recovery in such action, and after such company or corporation shall have constructed such fences and cattle guards as hereinbefore provided, and while they shall continue to maintain the same in good and sufficient repair, it shall not be liable for any such damages as aforesaid unless negligently or wilfully done. And every such company or corporation owning or operating any such railroad shall within two or three months from the time any section or portion of such road is finished and put in general use by running regular trains there, and in the case of any road now in use [* * *] from the time that this act shall take effect, erect and maintain the fences and cattle guards as herein provided. Any violation of the provisions of this section on the part of any railroad corporation owning or operating any railroad in this State, by failure or neglect to construct and maintain fences and cattle-guards as herein required, shall be punished by a penalty of twenty-five dollars per day for each and every day that such neglect or failure shall continue: *Provided*. That [if] such fences and cattle-guards shall not be built as aforesaid along such portions of any line of road as is or may be constructed north of a line extending due west from the mouth of the Saginaw river, the corporation or company owning or operating any such line of road shall not be liable to the said penalty unless such fence shall be ordered by the commissioner of railroads, but shall be liable to all the other provisions of this section; and if any person shall ride, lead or drive, or intentionally permit any horse or other animal upon such road and within such fences or cattle-guards [other than farm crossings, or shall injure or destroy, or make openings or passages farm crossings, or shall injure or destroy, or make openings or passages, through or over such fences or cattle-guards], or neglect to close any gates or bars immediately after passing through the same, without the consent of such company or corporation, he shall, for every such offense, be liable to a fine not exceeding one hundred dollars, and shall also pay all damages which shall be sustained thereby to the party aggrieved: *Provided further*, That nothing herein contained shall be construed to prevent the erection of any other fence than that herein provided for, as may be agreed upon in writing between the duly authorized agent or officer of any railroad corporation and the owner of any land through which the road of such corporation shall be in operation.

In which said amendment the House non-concurred,

Respectfully report that they have had the matter of difference existing between the two Houses under consideration and have agreed to recommend that the Senate amendment be amended so as to read as follows:

SECTION 1. *The People of the State of Michigan enact*, That section 15

of article 4 of act No. 198, session laws of 1873, entitled "An act to revise the laws providing for the incorporation of railroad companies, and to regulate the running and management, and fix the duties and liabilities of all railroad and other corporations owning or operating any railroad in this State, and the several acts amendatory thereof," being compiler's section 337 of Howell's annotated statutes, as amended by act No. 234, public acts of 1885, be and the same is hereby amended so as to read as follows:

SEC. [15] 3377. Every railroad company formed under this act or any former act, and every corporation owning or operating any such railroad, shall erect and maintain in effective condition of repair fences on each side of the right of way to their respective roads, as hereinafter provided. All the boards to be firmly nailed to the posts with not less than two eight or ten-penny fence nails at each post. Or it may be constructed of posts, boards and wire in combination as follows: The posts shall be of cedar, tamarack, or oak, not less than seven feet in length and six inches in diameter, to be set not less than two and one-half feet in the ground, at a distance apart of not more than eight feet from center to center. Such right of way fences shall be provided with suitable connecting fences and cattleguards at all highways and street crossings, which shall at all times be kept in effective repair and sufficient to prevent stock of all kinds from passing upon the track of the railroad at such highway or street crossings. Convenient farm crossings shall also be constructed by any such railroad corporation across the right of way and track of its railroad, with the necessary gates or bars therefor as the owner or occupant of the premises may elect, at the sides of the right of way, which said gates or bars shall be of sufficient width to admit the free and easy transportation of all farm machinery, including harvesters or binders, in form as the same are usually drawn, upon the application of the owner or owners of land lying upon both sides of such railroad track, the same being inclosed by exterior fences, and being adjacent to such right of way. Prayer by Rev. Mr. Franklin.

Leave of absence was granted to all the absentees for the evening.

Mr. Abbott offered the following:

WHEREAS, The Lansing Journal, a newspaper published in this city, in its issue of Saturday, June 18, contains an article with the following heading:

FOR BOODLE!

HOW THE MICHIGAN LEGISLATURE HAS DISGRACED ITSELF AND THE STATE.

A Record of Corruption!

ENTIRE DELEGATION OF ONE COUNTY BOUGHT FOR STOCKBRIDGE FOR \$2,000.

The Double-Dealing Senator!

That \$6,000 Offer!

WORK OF THE RAILROAD LOBBYISTS.

THE ALMA AFFAIR.

GOLD WATCHES AND HOTEL BILLS—A SESSION OF BRIBERY AND SHAME.

AND WHEREAS, The publication of said above mentioned article which does not give the names of the members of this House alleged to be guilty of the corrupt and dishonest acts mentioned, tends to and does seriously reflect upon the character and cast suspicion upon the honesty of every member of this House;

Resolved, That the publishers of said Lansing Journal be and they are hereby requested to print and publish in their paper, as promptly as may be, all of the names of members of this House to whom said article is intended to refer, giving all the facts within their knowledge or in their possession upon which said article was based, thereby relieving those members of this House to whom it did not refer, and whom it did not intend to characterize as "boodlers," and as being guilty of dishonest practice, from the imputation of dishonesty, which said above mentioned article if not explained as above requested, unjustly leaves upon them.

Pending action on this resolution,

The Clerk asked permission to make a statement concerning a similar article or articles that had appeared in the Detroit Evening News, which claimed to state on the authority of the Clerk of the House, the existence of bribery and corruption.

The clerk said that, on the appearance of the first article, he prepared and sent to the "Evening News" a letter objecting entirely to the use of his name in connection with any such statements, and requesting that such letter be published in the "News" of to-day, which letter was substantially as follows:

Your legislative correspondent is a past master in the pleasing art of realistic romancing. Some newspaper men are so fearful that some other journal will get some romance for publication ahead of theirs that they catch at straws, which do not even show which way the wind blows, and prophecy a tornado. Now I run a paper myself—you may not have heard of it—but I do, a daily; the House journal—well I sometimes miss a day now and then—and therefore ask the courtesy due the profession of not being called upon to stand as godfather for somebody elses' guesses or romances. I have to stand as sponsor for some fictions in our own journal, but a due regard for the ninth commandment requires me to ask to be excused from any responsibility for your special "bribery" item of Saturday last. I have no knowledge on the subject.

Respectfully,

DANIEL L. CROSSMAN.

Mr. Herrington moved that the resolution do lie on the table.

Which motion did not prevail.

Mr. Dickson demanded the yeas and nays.

The demand was seconded.

Pending the taking of the vote on the adoption of the resolution,

Mr. Manly moved that the resolution be amended so as to include the Detroit Evening News and the Detroit Journal.

Mr. Herrington moved as a substitute for the resolution that the articles in the Lansing Journal, and the Detroit Evening News be referred to a special committee of five, who shall have power to investigate and report in regard to the matters therein contained,

Which was withdrawn.

Mr. McKie moved that the resolution do lie on the table.

On agreeing to which,

Mr. Jones demanded the yeas and nays.

The demand was seconded, and the motion did not prevail by yeas and nays as follows:

M. E. RUMSEY, *Chairman.*

Report accepted and committee discharged.

On motion of Mr. Rumsey,

The House concurred in the amendments made to the bill by the committee.

The following protest was presented:

To the Speaker of the House of Representatives:

We hereby respectfully protest against the act of the committee on ways and means in amending Senate bill No. 35 known as the University bill, for the following reasons:

1. The bill was fully and fairly discussed in this House on its original passage when this body saw fit to provide seventy-five thousand dollars for the erection and equipment of a building for a microscopical and historical laboratory and a laboratory for teaching physics and natural philosophy. Which said bill our esteemed Governor saw fit to ask the legislature to recall, which they declined to do. Our most respected executive then saw fit to return the said bill to the Senate together with a message giving his reasons therefor. In section one of said message the Governor assigned reasons for his disapproval of said bill that are beyond the power of the legislature to remedy and that he should have referred in his message to this body at the commencement of this session. We refer to the power given the regents by the constitution of Michigan, article XIII, sections 6, 7, 8, and to chapter 193 of the compiled laws of this State as annotated by Andrew Howell.

This, in the opinion of your protestants, shows a disposition on the part of the executive to interfere with the acts and doings of the board of regents of the university in a manner not authorized by the constitution nor warranted by the laws of the State.

In section two of said message the governor has seen fit to say, "I am unchanged in my opinion that a greater part of the \$75,000 item asked for the purpose of an experimental and chemical laboratory should be eliminated from the bill." Which said opinion the legislature has seen fit to courteously com-

ply with, the Senate passing a bill fixing the item above referred to at \$50,000, which said item, as we are informed and believe, the governor wishes to be \$35,000 instead of \$50,000, so the committee have seen fit to recommend that the bill be amended so as to read \$35,000 instead of \$50,000, against which we most respectfully protest for the following reasons:

Article 3, Sect. 2 of the constitution of Michigan says, "No person belonging to one department shall exercise the power properly belonging to another, except in the cases expressly provided in this constitution."

Now, if the governor has the right to say that an appropriation is too large, he also has the right to say that an appropriation is too small. Such a construction of the constitutional rights of the executive department would place the appropriating power in the executive instead of the legislative department; in that case it would be the duty of the committee on ways and means to always seek the governor and ask him how much he wished appropriated for each State institution.

In the opinion of your protestants the power to appropriate is a legislative and not an executive power.

Believing that the action of the committee, unconsciously though it may be, has been influenced by the executive department, we therefore protest against the action of the committee in so amending said bill, as we believe the act of the executive is an unwarranted interference with the rights of the legislative department, and one that if allowed to continue will work much injury to the State.

Mr. Makelin arose to a question of privilege, as follows:

I find in the Lansing Journal of this date the following:

John Makelim, please take the witness stand!

Did you ever see a letter to a leading republican candidate for United States senator which in substance asks for an interview with one of his "confidential agents" in order that the writer's delegation may "vote understandingly?"

Did the writer ever meet any representative or representatives of this candidate and arrange with him or them so that the delegation was enabled to vote "understandingly?"

Where did the meeting take place, who were present, and how was the "understanding" made so definite that the delegation voted finally for the candidate alluded to?

To the above I will simply answer that I know nothing about the matter, and if the Lansing Journal knows of anything or any letter which implicates me I demand in the name of justice that they produce them.

JOHN MAKELIM.

I find the following in the Lansing Journal of this date:

Richard O'Keefe, third member from Sanilac, do you know anything of an equally damaging letter?

Speak up, gentlemen and give the house of representatives truthful and unequivocal answers to the Journal's questions.

In reply to the questions asked by the Lansing Journal, as above, I have to say as the "third member from Sanilac" that I know nothing of any such letters or transactions mentioned in said paper, and demand that an opportunity be given me to wash my hands of the matter so far as pertains to me.

And until such fences and cattle-guards as hereinbefore provided for shall be duly constructed, the company or corporation owning or operating such road shall be liable for all damages done to cattle or other animals thereon which may result from the neglect of such company or corporation maintaining or operating such road to construct and maintain in repair such fences and cattle guards as aforesaid, to be recovered by the owner of such cattle or other animals in a civil action before any court of competent jurisdiction, together with an attorney's fee of twenty-five dollars, to be taxed as costs against the defendant in case of recovery in such action, and after such company or corporation shall have constructed such fences and cattle guards as hereinbefore provided, and while they shall continue to maintain the same in good and

sufficient repair, it shall not be liable for any such damages as aforesaid unless negligently or willfully done. And every such company or corporation owning or operating any such railroad shall within two or three months from the time any section or portion of such road is finished and put in general use by running regular trains thereon, and in the case of any roads now in use [* * *] from the time this act shall take effect, erect and maintain the fences and cattle-guards as herein provided. Any violation of the provisions of this section on the part of any railroad corporation owning or operating any railroad in this State, by failure or neglect to construct and maintain fences and cattle-guards as herein required, shall be punished by a penalty of twenty-five dollars per day for each and every day that such neglect or failure shall continue: *Provided*, That [if] such fences and cattle-guards, shall not be built as aforesaid along such portions of any line of road as is or may be construed north of a line extending due west from the mouth of the Saginaw river, the corporation or company owning or operating any such line of road shall not be liable to the said penalty unless such fence shall be ordered by the commissioner of railroads, but shall be liable to all the other provisions of this section; and if any person shall ride, lead, or drive, or intentionally permit any horse or other animal upon such road and within such fences or cattle-guards [other than farm crossings, or shall injure or destroy, or make openings or passages through or over such fences or cattle-guards], or neglect to close any gates or bars immediately after passing through the same, without the consent of such company or corporation, he shall, for every such offense, be liable to a fine not exceeding one hundred dollars, and shall also pay all damages which shall be sustained thereby to the party aggrieved: *Provided further*, That nothing herein contained shall be construed to prevent the erection of any other fence than that herein provided for, as may be agreed upon in writing between the duly authorized agent or officer of any railroad corporation and the owner of any land through which the road of such corporation shall be in operation.

And the committee further recommend that when so amended, the same be concurred in by both houses, and ask to be discharged from the further consideration of the subject.

And further to inform the House that Senators Edwards, Sharp and Deyo have been appointed as such committee on the part of the Senate.

Very respectfully,

LEWIS M. MILLER,

Secretary of the Senate.

The question being on acceding to the request of the Senate for a committee of conference,

The request was granted.

The Speaker announced as such committee on the part of the House, Messrs. Bates, Diekema and J. W. Robinson.

On motion of Mr. Rentz,

The House took a recess until 2 o'clock this afternoon.

AFTERNOON SESSION

2 o'clock P. M.

The House met and was called to order by the Speaker

Roll called: quorum present.

The following protest was presented:

To the Speaker and Members of the House of Representatives:

I hereby formally protest against the action of the Executive of the State in interfering with the action of the Legislature in the passage of bills, as

has been done in the case of the so-called mining school bill. Whether the bill passes or not is a matter of no consequence to me.

The question of economy so far as the amount of the appropriation is concerned has ceased to be one of importance as it has become merged in the greater question of what the rights of the Legislative department are in the discussion, amendment and passage of bills. Section 13 of article 4 of the constitution says "Bills may originate in either house of the Legislature;" section 14 of said article says "Every bill and concurrent resolution except of adjournment, passed by the Legislature shall be presented to the Governor before it becomes a law. If he approves he shall sign it, but if not, he shall return it with his objection to the house in which it originated."

This House sent a bill to the Governor some days since providing for the construction of a mining school. The Governor has by a letter virtually ordered one of the honorable members of the Legislature to recall said bill or he should veto it; at the same time he dictates to that body what said bill shall be when returned to him. In other words he recommends a substitute for the honorable Senator's bill and gave him to understand that unless his substitute is passed he shall not sign it when sent to the executive department. He has also had a consultation with the House committee on ways and means as we have been informed by its chairman on the floor of this House, in which he again signifies what the bill shall be, and that unless his wishes are complied with he can not approve the bill.

Now, in the opinion of your protestant, the members of this body were elected that they might introduce and discuss measures, and when deemed desirable amend the same. The Governor, in the last days of the session, sees fit to give positive instruction as to what a bill shall be to become a law. Unless his individual wishes are complied with we have no future remedy and could not pass said bill over his veto in case we saw fit to, as after to-morrow this body will be adjourned and its members home.

I was sent here by my constituents to represent them. If the Executive has the right to arbitrarily dictate legislation, our privileges are usurped, the right to amend and debate is cut off and the people virtually without a Legislature.

Such a state of facts was never contemplated by the constitution or laws of the State, is against all the rules, practice and customs of legislative bodies, and a violation of the principles of free government, and without precedent in the history of the State.

Against all which your protestant wishes to enter this formal protest.

MARTIN CROOKER.

The House met pursuant to adjournment and was called to order by the Speaker.

Prayer by Rev. Mr. Franklin.

Roll called: quorum present.

Mr. Herrington offered the following:

Resolved, That the thanks of this House are hereby tendered to Speaker Markey for the impartial, able, and honest way in which he has performed the duties of his office.

The question being on the adoption of the resolution,

Mr. Herrington spoke as follows:

MR. SPEAKER,—I congratulate you that you have so conducted yourself in the Speaker's chair that this resolution is offered by one opposed to you politically.

To the minority in a legislative body, nothing is so important as a fair and able Speaker.

In the making of committees, the recognition of members on the floor, and the decision of questions, a Speaker has great power; and if he is so disposed, he can do great injustice to the minority. Permit me to say that I believe that you treated the minority fairly in representation on committees, that they have always been recognized on the floor, and in your decisions, while some may have been momentarily displeased, you have always decided as you believed right, and it is enough to say that no appeal has ever been taken.

I am sure, Mr. Speaker, that no member cherishes other than good will for you, and I wish you, on behalf of the House, future prosperity and happiness.

The question again being on the adoption of the resolution,

The resolution was unanimously adopted by a rising vote.

Mr. Rumsey offered the following:

Resolved, That from and after this date the daily sessions of this House shall convene at 11 o'clock A. M.,

The committee on state affairs, to whom was referred

Concurrent resolution authorizing the issue of a patent to Selah Reeve, as follows:

WHEREAS, It is made to appear to the Senate and House of Representatives that Selah Reeve, on December 14, 1853, located, entered and paid for and became the holder and rightful owner of State land certificate number 1239, and that he paid in full for the land in said certificate described;

AND WHEREAS, It appears that said Selah Reeve has conveyed the lands described in said certificate to sundry persons;

AND WHEREAS, It appears that said certificate is lost. Therefore be it

Resolved by the Senate (the House concurring), That the commissioner of the State land office be and he is hereby authorized to issue in the name of the said Selah Reeve, a duplicate certificate in place and stead of said certificate No. 1239 covering the following lands, to-wit: The east half of the southwest quarter, the southwest fractional quarter of the northwest quarter, the west half of the southwest quarter and the southwest quarter of section 31, in township 12 north, of range 15 east, being the same land mentioned and described in said original certificate No. 1239.

And be it further resolved, That the Governor of the State be and he is authorized upon presentation to him of said duplicate certificate to sign and cause to be issued to said Selah Reeve a patent for the lands described therein whenever such certificate shall be presented to him with the certificate of the commissioner of State land office endorsed thereon, certifying that the principal and interest as well as all taxes and charges due to the State upon said land have been paid.

Respectfully report that they have had the same under consideration, and have directed me to report the same back to the House, with the accompanying substitute therefor, as follows:

WHEREAS, It is made to appear that on the 14th day of December, 1853, Selah Reeve purchased, at the State land office, and paid for in full, the following described lands: The southwest fractional quarter of the northwest quarter, the west half of the southeast quarter, and the southwest quarter of section 31, in township 12 north, of range 15 east, containing two hundred and sixty-seven and forty hundredths acres, and that he received therefor full paid certificate No. 1239, and

WHEREAS, It is claimed that the said certificate No. 1239 has been lost or destroyed, and that for that reason no patent can be issued thereon; therefore be it

Resolved by the Senate, (the House concurring), That the commissioner of the State land office be and he is hereby authorized to issue to the persons legally entitled thereto, new certificates in place of said certificate No. 1239, whenever the persons claiming title thereto shall make due proof by affidavit or otherwise that the said certificate has been lost or destroyed without their fault or connivance, and that neither they nor their grantors have sold or encumbered the land described therein; and be it further

Resolved, That upon presentation to him of the said duplicate certificates, together with the further certificate that all the taxes, interest and charges upon said lands have been paid, the Governor of the State be and he is hereby authorized to cause a patent to be issued for the land described therein to the persons entitled thereto.

Mr. Speaker and Members of the House of Representatives:

Two years ago it was my pleasure and privilege to form the acquaintance and to cultivate the friendship of the representative from Ogemaw county. He was young in years, but his keen intellect, his mature judgment, and above all, his powerful and fearless presentation of his deep-rooted and honest convictions, made him one of the shining lights of the House of 1885.

When we left our homes and firesides, and exchanged our private for our public duties in January last, it became my pleasure to nominate this young man for your Speaker. I promised you that he would reflect credit upon you in that position. I promised you that the business of the House would not lag under his hands. You took me at my word, and to-day I am proud to say that our highest expectations have been realized. Mr. Speaker, through your fidelity to duty, through your honest, impartial rulings, through your kind and friendly manners, you have gained the love and respect of us all, and we feel at this, the closing hour of the session, that we are all tied to you by cords of friendship that neither time nor distance can sever. You have reflected credit upon yourself, upon this House and upon the State of Michigan.

It therefore gives me great pleasure in the name of all the Members of this House of Representatives to present you with this token of our high esteem for you, and to assure you that with it go our best wishes for you and yours through life.

A silver tea set and water service were then placed on the Speaker's desk. The Speaker spoke in reply as follows:

Gentlemen of the House of Representatives:

I most sincerely thank you for this expression of your confidence and esteem. The gentleman who has made this presentation has paid me a very high compliment, and I only trust that I am worthy of it, and that this token of your esteem has been warranted by my actions while acting as your presiding officer. I would be much less than a man if I were not moved by such an expression of confidence upon your part. It is very difficult for any person to preside over a body of this kind containing one hundred members, and expect to please them at all times. This I had not expected, and could not reasonably expect, but whatever mistakes I have made, have not been mistakes of the heart. I have at all times endeavored to perform the arduous duties of this position fairly, honestly, and impartially, and I have the satisfaction of believing that you believe that such has been my desire and intention. I am under many obligations to you for your generous assistance in this work, and now, as we are about to close the session, and expect to be separated by distance, I trust that the feelings of friendship which our associations here during the session have engendered, may ever remain. I have formed many pleasant associations and acquaintances, which will not soon be forgotten, and this beautiful token of your friendship will ever be a constant reminder to me of the pleasant associations of this session, and will be dearly prized and fully appreciated.

Again, gentlemen, I thank you for this mark of your esteem.

To the Speaker of the House of Representatives :

SIR—I am instructed to return to the House the following concurrent resolution (being House substitute for Senate concurrent resolution):

WHEREAS, It is made to appear that on the 14th day of December, 1853, Sela Reeve purchased, at the State land office, and paid for in full, the following described lands: The southwest fractional quarter of the northwest quarter, the west half of the southeast quarter and the southwest quarter of section 31, in township 12 north, of range 15 east, containing two hundred and sixty-seven and forty hundredths acres, and that he received therefor full paid certificate No. 1239, and

WHEREAS, It is claimed that the said certificate No. 1239 has been lost or destroyed, and that for that reason no patent can be issued thereon; therefore be it

Resolved, By the Senate (the House concurring), that the commissioner of the State land office be and he is hereby authorized to issue to the persons legally entitled thereto new certificates in place of said certificate No. 1239, whenever the persons claiming title thereto shall make due proof by affidavit, or otherwise, that the said certificate has been lost or destroyed without their fault or connivance, and that neither they or their grantors have sold or encumbered the land described therein; and be it further

Resolved, That upon presentation to him of the said duplicate certificates, together with the further certificate that all the taxes, interest and charges upon said lands have been paid, the Governor of the State be and he is hereby authorized to cause a patent to be issued for the land described therein to the persons entitled thereto,

Which concurrent resolution so substituted has been adopted by the Senate.

Very respectfully,

LEWIS M. MILLER,
Secretary of the Senate.

NAYS.

The bill was then referred to the committee on engrossment and enrollment for enrollment.

Mr. Hosford offered the following:

Resolved, That the hearty thanks of this House of Representatives be tendered to Hon Daniel L. Crossman, the clerk of the House since 1873, for the able, impartial and faithful attention he has given the duties of his position during this term, and that he be invited to address the House in his historic rhyme, giving us some idea of the impressions left on his ripely experienced mind by the legislation of this session.

The question being on the adoption of the resolution,

The resolution was unanimously adopted by a rising vote.

The clerk then read as follows:

ECHOES.

“With stout iron shoes be my Pegasus shod,
For my road is a rough one, flint, stubble and clod,
Blue clay, and black qaumire, brambles no few,
And I gallop up hill.”

OVID N. CASE.

You met, one hundred strong. No, one was not there
To join your circle, with hand uplift, and swear
His duty well to do. Ninety and nine met
On that opening day. One absence to regret,
One empty chair, crape wreathed, to note the fact.
That Wayne was short. The House a favorite lacked.
From all arrests House members are exempt.
Brave officer indeed, who with contempt
For constitution, old and much respected,
Dare put his hand, upon a man elected;
But one there is from whom no place can shield,
Swift messenger to all—the highest yield.

“Deep in a murky cave’s recess,
Bathed by oblivion’s listless stream,
A monarch sits,” whom to repress
No human law hath power.
His mandate strong, man’s law doth spurn
As idle vision, senseless dream.
Death for each mortal in his turn
Will fix the closing hour.

JOHN ROBERTSON.

Rare volumes I saw upon my desk one day,
Massive in their style, and bright in their array,
Strange mixture of burnished brass and parchment^{old};
Records whereon martyred heroes are enrolled,
Spread out in honor of a man whose zeal
Reached out for every private soldier's weal;
A patriot old who'd served his people well,
And well deserved the honors which befell
His works a library made, bristling with facts;
The story of the war, the book of acts.

Above these various books I bent;
Thoughts of their author, dead, now lent
An extra charm to what therein
Was gathered long ago, and caught
Betwixt the lids. His heart had been
Thrilled with every teeming thought.
In dreams he dreamt, in work he wrought.
And pressed his facts upon these leaves,
And treasured them, his garnered sheaves.

GENTLEMEN:

How came you by seats on the floor of this hall?
How came you ahead in election last fall?
Don't answer the question, 'twould take quite too long,
And much interfere with the rhyme of my song.
I'll answer it for you, if you'll be content,
The people were just the right age to consent.

Your honored Speaker—how came he elected?
Your Clerk and his aids—why were they selected?
The session is over, the facts can be told,
Although in six months they have grown somewhat cold;
The records now show, and the word abroad went,
That to these selections you gave your consent.

SOLDIERS' HOME.

A home for old soldiers, the State had prepared,
And true to its record cared much how they fared.

When stories got rife of abuses therein,
 You sent out committees to hunt out the sin,
 With positive orders not once to relent,
 For young or for old, grant no age of consent.

NO LIQUOR NEAR SOLDIERS' HOME.

Those wrecks of mortality, racked with disease,
 Sometimes to procure of their sorrow, surcease,
 Imbided quite too freely a fluid—benzine,
 Have now by your action, a just quarantine,
 And who for evasion a chance would invent,
 For those who by weakness are sure to consent.

ELECTION OF SENATOR.

You know how it is Senatorial chairs,
 Those Meccas of power and national cares
 Are filled by force of great moral suasion,
 And some well timed mental evasion ;
 I'll make a selection which will represent
 Such a session event if you will consent.

Conger, Stockbridge, Lacey, Hubbell,
 Fitzgerald, Robinson or Yapple ;
 "Fire burn and caldron bubble
 Round about the caldron go,
 In the poisoned entrails throw ;
 Toad that under the cold stone
 Days and nights has thirty-one ;
 Sweltered venom sleeping got,
 Boil thou first in the charmed pot."

"And now about the caldron sing
 Like elves and fairies in a ring,
 Enchanting all that you put in."
 Thus your election might have been,
 And you be called to make lament,
 If ere to wrong you did consent.

ALMA.

You've heard of Pine River, a town of this State,
 Which some thought it proper to disintegrate,

While others with quite equal vigor maintained,
That by rending asunder naught could be gained.
The question was put, it was quite an event,
The answer came pat, we're too young to consent.

But the youngest grow old, the session was long,
And it happened that some in vigor grew strong
And bold in opinion that Alma should win,
To give her two sections they thought was no sin,
So that, when the question a second time came
(Although the House member from Gratiot was game),
Only one vote it lacked of hopeful intent,
Since so many had reached the age of consent.

And when a third call for this bill was made,
The members were worn with demands for their aid,
And, themselves to relieve of anything more,
Granted all that was asked for to wipe out the score.

OSCODA.

A festive young town on the Lake Huron shore
Has played the coy maiden for four years or more,
Coquetting and toying like fair love's young dream
With a willing gallant just over the stream.
But when forced to plainly declare her intent,
Thus answered Oscoda, "Too young to consent."
But as time wore along and others united,
Lest some should believe the maiden was slighted,
You pushed on the wedding for good or for ill,
Left relief by divorce, in the court file a bill.

AGE OF CONSENT.

Age of consent, well what does it matter,
Eve was quite young, when the serpent did flatter
With his lying tongue her God given beauty,
And made her forget, to whom she owed duty,
None the less her children are called to repent
Or be cursed by the fall, without their consent.

There's a time for all things, the wise man said,
A time to lead others, a time to be led,

If this be the truth it follows of course
In natural sequence as reason perforce,
There's a time to refuse, though the heavens be rent,
And with equal firmness, a time to consent.

But there's no time to do wrong; true we are free
To do anything right, but full liberty
Is no license for wrong, committed on others,
As God is our Father and we are brothers
Let no evil intent with our acts be blent,
To injure another no *man* should consent.

STATE INSTITUTIONS.

You've heard through the session, the need of reform,
You've seen of petitions, sometimes quite a storm,
You've met State Institutions, in their war paint,
And heard their regular biennial plaint,
You've met them—and now, to survive are content
Since age is against you, the age of consent.

It seemed that they all wanted landed estate,
To spread out their borders, in acres grow great,
To buy out their neighbors, the State pay the bill,
To pasture their cattle, their own land to till,
And thus be big grangers, with farming intent,
If you'd vote the money and give your consent.

One of these State wards, at Coldwater, got hot,
And the elements seethed and boiled like a pot,
Until of all nutriment they were devoid,
The ear of the public, of scandal was cloyed.
The House thought it best to send out a skimmer,
The Senate refused, said let the pot simmer.

The one at Ann Arbor, with modest intent,
With the wisdom of sages, thought to circumvent
All single objectors, before they appeared,
Clear the field of all foes, so nought need be feared,
By giving a banquet—a feast, if you please,
To make of all takers, their friends—such as these.

Success crowned the feast, and on its perfume
Discords disappeared in harmonious tune.
The bill by transition, *almost* was an act,
Before the wise men caught on to the fact
That the best laid plans of the wisest of men,
Though carefully laid, may need laying again.
That no game is finished until fully played out,
A seeming ovation may turn to a rout.

But the one at Houghton was modest for two,
For the sum, which they asked, one feast would not do.
And so to make the case remarkably plain
The Upper Peninsula called you again.
Not strange they called, for as usual the case is,
Those gentlemen held in their hands all the aces.
They won, of course, supposed the game ended.
That wisdom and skill, judiciously blended,
Had secured them the plum, ripe for the picking,
Without further chance for any more kicking.
Alas! The frailty of human invention,
The plum did not drop, as was their intention.
A game known as solitaire, by one person played,
Was new to those members so strongly arrayed
For coping with numbers. Thus it was so
They took what they could get, to shun a veto.
Then one at Ionia got hung upon straws,
Humanity's frailty is looking for flaws.
Just look close enough, there are spots on the sun,
Yet it brings all blessings and seems to have done
Its work well enough. Notwithstanding the specks,
The planets whirl true, in their systems no wrecks.

There's one near Lansing, with a record unique,
Look over the annals, and everywhere seek
For a case where before a bill got a raise
Against all committees. The House got a craze
And gave a ten thousand, for luck, if you please,
That wifeless professors may live at their ease.

LIQUOR REGULATION.

The tax upon liquor came in for its share
Of your wisdom and skill, with your utmost care
You sought to harmonize all outside extremes,
And with every effort in reach of your means
Agree on a plan, which should so regulate
As should, the best good, secure to the State.

Then a marshal you made, the law to enforce,
The causes of trouble to search to their source.
And guilty offenders from bar of saloon
To the bar of justice, offended, take soon
To answer for all their misdeeds and laches
With punishment sure, for all that he catches.

But this was not all, as the record will show,
You did upon counties the option bestow
Of tax law restraint, or complete prohibition,
Police regulation, or full abolition
Of traffic in liquor, as voters may say
By their ballots, dropt on election day.

PROHIBITION.

Who has not oft heard that sweet story of old,
Of the father of patriarchs, modestly told,
How with the angel he plead for a city,
That for fifty righteous the Lord would have pity,
And stay from destructive calamity dire
That thrice wicked Sodom, else doomed to the fire.

But when granted his prayer, no rest did he find,
Lest a few he should lack of the fifty, in kind.
So he said, "Peradventure, but forty and five,
For these will you save the whole city alive."
When this was agreed to, no better was he,
For still he might lack of the number, you see.
And so, in humbleness, further he prayed
To have this destruction, for forty, delayed.

Again it was granted, again he had fears.
And thoughts of his kinsmen inclined him to tears ;

So his faith to build up, and help Lot's chances,
For further concessions he makes advances.
And asks that for thirty the town might be saved,
In dust and in ashes, this boon he craved.

Once more came the answer, his hope to maintain,
"If but thirty are found, I promise again."
But still the doubt clings, as he thinks of the case,
And recalls the wickedness known in the place.
He is strengthened a further reduction to ask,
That he may be eased of such difficult task.
"If but twenty are found, will that number do?
Of those who are righteous, I fear there are few."

"Yes, yes, was the answer, if twenty are found
Where sin and iniquity doth so abound,
The city I'll save, and my anger abate."
Though this number was small, yet said to relate
The faith of the patriarch was not so great.
He knew that the cry had gone up to Heaven,
Of riots, too wicked to be forgiven.
He remembered poor Lot t'ward Sodom was pitching,
He knew, for weak souls, such a town was bewitching.
He knew that in Sodom a license prevailed,
Whose effect upon Lot bad habits entailed,
And 'tis clear, from the later events of Lot's life,
From the acts of his daughters, the fate of his wife,
That if of society they were the best,
'Twas quite time for the Lord to burn up the rest.
No wonder his uncle had much anxiety
To avoid such terrible notoriety,
Thus again, for a last and final appeal,
His case he presented for woe or for weal.
"Peradventure but ten of the righteous there be,
O, Lord, will you then save the city for me."
O, goodness unbounded and mercy untold,
Except in the Bible, that record so old.
The answer was simple. "For ten I will save
Your kinsman, his city, and all that you crave.
But the story's not done. All efforts were vain,
For not even ten did the city contain.

One family only, four persons in all,
Fled for their lives and gave heed to the call.

MORAL FOR SAMUEL DICKEY.

Beware of the cities, the righteous are few
On plain or in valley. Whatever your view
Father Samuel, pray, to Abraham's God,
That all races of men, be spared from the rod,
Though they differ from you in thought and in will
Help your kinsmen escape with your utmost skill.

OLEOMARGARINE.

When you get to your homes, this question you'll hear,
"What have you been doing in Lansing this year?"
Well, this be your answer, to wife or neighbor
"I'll tell you with pride the result of my labor,
There'll be no more fooling with farm butter fat
At hotel or grocery, or boarding house flat,
Just look over the door, on the inside or out,
In three inch black letters, read what they're about,
"Oleomargarine used or sold here"
Depend on that sign, deal not elsewhere my dear."

COMMERCIAL VALUES FROM SAGINAW.

Here's one point on which we all agree,
That a nation of traders are we,
A people commercial,
With trade universal,
Asking a price on all that we see.

Large towns have their boards to fix the rate
For buying or selling, small or great;
Rules inexorable,
Plan most adorable,
Working with the precision of fate.

Whatever it is you wish to buy,
Government bonds or a case of rye,
You can have no warrant
Without the price current,
That you'll not find prices quite too high.

If this plan on matter works so well,
If on all material things we sell,
We use public measure
To gauge our treasure,
Why shouldn't we set price on mind as well.

We do, 'tis mind that makes the teacher,
And fixes the price of the preacher,
And lawyers, quotation,
The true valuation
Of all who have been the world's teachers.

Why not put a price on law-makers,
A price within reach of the takers,
For 'tis a well-known fact
That by their every act
They put a price on law-breakers.

Then the platform, the pulpit, the law,
And all places that ever you saw,
The chair of professor,
The act of transgressor,
With great statesmen, of cash stand in awe.

Pope Leo, the tenth, indulgences sold,
Sent out his agents to gather in gold.
With a list of all crimes
Done for so many dimes
With which to build St. Peters, we're told.

True, Luther objected, thought it was wrong,
For which he's become immortal in song.
Now modern history
Renews the mystery,
A Saginaw man exposes the wrong.

MORAL.

Spite of these reasons, and others more vile,
Spite of the foolishness, as well as guile,
A feast was declined,
And the action defined
To be of House members, not quite the style.

True no one was glad, the roll call was sad
Upon which vote for expulsion was had;
But each one was impressed
That the man stood confessed
As unworthy to stand in the place he possessed.

DETROIT, UPPER HOUSE, AND JUNKETING TRIP.

The barons of Wayne, or lords of Detroit,
Failed to see their work as most others saw it,
Said to wipe them out would be a great pity
And injure the people of that fair city.
They said, if a Senate is good for a State
If the government does not the Senate abate,
Then the principals right, and if so, then where
Is it wrong for Detroit to so declare?
Now this argument ought to have had great weight
In our wise upper house—the Senate of State.
But here in the commons it fell very flat
On members whose bills had seen too much of that.

Then came a case of benevolence pure,
Your toils to lighten and your ills to cure.
In illustration of Scriptural creed,
When one cheek is smitten, the good, we read,
Can offer the other for like infliction,
And tender the striker a benediction.
And so Detroit, with great magnanimity,
Presents this spectacle of sublimity.
You smote her Upper House—note her piety—
She turns and fills you to satiety,
Offers her other branch to your inspection,
And thus submits her all to your election.

MARINE CITY.

Marine City, we're told, should have some more land,
To spread out its borders, in acres grow grand,
Its water and debt should share with its neighbors,
And take in return the good of their labors.
The Governor failed to catch the perspective;
The veto secured its share of invective.

SAGINAW.

Another fact which I must not miss stating
Happened one spring day when the birds were mating.
'Twas the time for billing and cooing, no doubt,
When all tender passions should be brought out,
When the Saginaw cities began to flirt,
Though the maiden was fearful of getting hurt,
The relatives urged, and the bans declared
Set the time for the nuptials, nor even cared
For the fears of the bride, quite boldly expressed,
Said marry you must, and give us a rest.

“Lo, the poor Indian, whose untutored mind,
Saw God in cloud, and heard him in the wind,”
For four score years asleep, in quiet rest,
Was called one day to be a wedding guest.
Bare bones, and grinning skull, were hustled in
By one who'd forced this courtship to begin,
And thus, for greeting to the charming bride,
Brought old dead issues, which the past should hide,
And, to convince you that his love was tender,
With cutting wit did most severely rend her.

DIVORCE.

Twenty minutes for divorce was once enough,
As the story goes, though a little bit rough
On the State or people, whose society
Was bound with such notions of propriety,
But to our State there'll be no immigration
For any such purpose of separation.

MARRIAGE.

Nor will we have ever the reputation
Of a Gretna Green, for the consummation
Of marriages by elopement, hasty,
For the bride or groom, whether stale or tasty
Must obtain of the county clerk permission
To approach the altar and change condition.

INSURANCE.

There's a time in which your lives to insure,
A time when life policies surely mature.
If the rights of all holders you would well guard,
Shut down on that kind now known as grave-yard.
In business beware of all mixed assortment
Of guile and cupidity—never consent.

This field of insurance you've plowed over well,
Your acts, and reports, for the people will tell,
In companies of increased stability
In service, and rates of more utility
In securing insurance that will insure
When the case gets beyond the doctor's cure.

Then there's the phases of fire indemnity,
Which you have discussed, with due solemnity.
You've considered the foreign mutual plan,
And how home companies might be began.
How much the adjuster must pay the holder
When the blaze is past and the ruins smolder,
And how to avoid that great enormity
Well known as board rate uniformity.

RAILROADS.

Then the railroads got their share of attention
In quite various ways that I might mention,
In lamps, and stoves, and couplings automatic,
St. Clair tunnels and freight rates quite erratic,
With fare for the people at two cents per mile,
Passes played out in inter-state commerce style.

SCHOOL BOOKS.

Some thought of all our ills the one enormity,
Was that in school books we lacked uniformity.
That all should learn the self same truth the self same way;
Grow to the self same height on the self same day,
And come to the self same price for every member,
Not grade from five to twenty-five—remember.

FISH.

Some thought the law should tell the time to fish,
That none should slaughter when or where they wish,
That fish should be exempt near breeding ground,
And every catch should weigh at least a pound.
Must every catcher, carry scales to weigh,
Or will the scales do, or the fish, pray say,
Who can tell weight, before the fish is landed,
Then to make safe, suppose we have them branded.

SWAMP LAND INTEREST FUND.

In the year eighty-five, sharp eyes discovered,
An obsolete law, and over it hovered,
Until a gigantic nestling they hatched,
Before many had on to the racket caught.
Some said 'twas a chicken, and a well bred fowl,
But some thought it a hawk and began to howl,
That it must be throttled before it was grown,
Else 'twould forage on provender not its own.
This nestling hatched for great utility,
Was troubled much with general debility,
Confined to its nest, but with this expectation,
That eighty-seven would change the situation.
Thus the war was on when the session began.
"It's a chicken," "It's a hawk," so the war cries ran,
Until by dint of watching and hauling,
With House rules and previous question calling,
The swamp land interest fund gave up the ghost,
A dead bird in the pit, to its friends, at most.

MORALIZING.

Often I've read, t'is nature's plan,
To slow develop good in man,
And bring him satisfaction.
That every thing of solid worth
Comes slowly forward to its birth,
Injured by hasty action.
'Tis late to give advice I know.
Too late, for any good, and so

I go to moralizing.
That every hasty act's a job
Some one, of rights, well earned, to rob
A piece of temporizing.

"Know, members each, what e'er your plan,
What e'er your politics, great man,
You must expect detraction,
Though of clean hand and honest heart
Your greatness must expect to smart
Beneath the rod of faction,"

"Like blockheads eager in dispute
The mob—that many headed brute,
All bark and bawl together,
For economic measures, some,
Others of prudence would have none,
And some are pleased with neither.

It matters little how you vote,
Some will in wrath the record quote
And name you in derision.
If you have voted as you ought,
Best good of all kept in your thought,
Rejoice in your decision.

GOOD BY.

"As ships from far and distant ports
To distant harbors hurrying on
Meet with each other on the deep
And hail and answer and are gone,

So we, upon the sea of life
Have met, as mortals often will,
Some from the prairies south and west,
Some from the land of rock and hill.

Some from the busy marts of trade,
The office, shop, the bank or store.
Some from the mill, the mine, or farm,
All to indulge in statesmen's lore.

So shall we pass our separate ways,
As vessels passing on the main,
And in the years of life to come,
Our ways may never meet again.

But when life's voyages all are done,
Where're apart our ways may tend.
We'll drop our anchors side by side
In the same haven at the end.

VALEDICTORY.

" May all love.
His love, unseen but felt, o'er shadow thee,
The love of all thy sons encompass thee,
The love of all thy daughters cherish thee,
The love of all thy people comfort thee,
Till God's love set thee at his side at last."

Gentlemen of the House of Representatives :

The hour has arrived when you are about to close the session of 1887; you have completed your work and are ready to submit it to the judgment of your

constituents. And before pronouncing the words that will officially end our labors here, and possibly forever end our official connections, I desire to thank you, each and all, for the uniform kindness and courtesy extended to me while acting in the capacity of your presiding officer, and to wish you a safe return to your homes, and your duties and labors there which you laid aside at the beginning of this year to assume the important work of legislation for nearly two millions of people. When on the 5th day of January last you stood before this desk and solemnly declared that you would support the constitution of the U. S., and the constitution of this State, and that you would faithfully and honestly perform the duties of member of the Legislature of the State of Michigan, you, in my judgment, took upon yourselves a great and important work, a work than which none is more important to the people of this State, for I believe, as was well said by an honorable Senator a short time since, that there is no public capacity in which a man can serve the people of his State so well, or with more advantage than in the very position which you occupy to-day.

And gentlemen, in this connection I desire to attest the honesty, industry and zeal that have characterized your efforts to discharge these important duties during this session. Coming as you do from all parts of the State, with varied constituencies, desirous that their wishes and interests may be consulted, your deliberations have been marked by coolness and toleration, keeping constantly in view the promotion of the public welfare by doing what seemed to be for the best interest of the greatest number of the people. And I feel that I may very properly congratulate you upon the harmony and good fellowship you have maintained throughout this long and tedious session, fully realizing that if my earnest endeavors to honestly, faithfully and impartially discharge the important duties of this position have met with even a fair degree of success, it must be attributed to your forbearance, co-operation, ready and liberal support.

And now gentlemen, I will not stop to speak of the work you have accomplished, only to say that I believe that the session of 1887 has produced many very important measures, affecting the moral and material interests of our great State, all in the right direction, and I sincerely hope that they may have a fair and liberal trial, such a trial as will fully demonstrate either the wisdom or folly of the measures, and, one thing let us all observe, that it is our duty to obey the laws of the State such as they are while they exist and to teach the people by word and example to respect the laws, with the full belief in the wisdom of the people, to retain or repeal the same as public sentiment may demand.

And to you, Mr. Clerk, as well as to your assistants, I am under many very great obligations for the kind and generous assistance at all times so freely rendered, and I know that your efforts to please the members and expedite business is fully appreciated.

To the sergeant-at-arms and his assistants who have assisted me in preserving order and keeping the lobby quiet, as well as to our kind janitor and his assistants, who have made it so comfortable for us here, I return my sincere thanks for the efficient manner in which you have discharged your duties.

And to the messenger boys, who have always been ready and willing to do our bidding, I have a word to say. When, at the commencement of the session I was confronted with some 40 or 50 bright, honest and intelligent looking boys, all anxious to serve the House of 1887, I was much perplexed to

know just which ones I should select. The selection was made and you were the favorites. I am now satisfied that my selections were good ones, for by your honesty, industry and earnest efforts to please you have won a warm place in our hearts, and I only hope you will continue in this same course through life, believing that if you do you will be honored and respected by all.

And now in conclusion let me again thank you all, members and employes of this house for your kind assistance and courteous treatment while presiding over your deliberations during the session now about to close.

The motion to adjourn then prevailed, and

The Speaker declared the House adjourned until Saturday, June 25, at 11 o'clock A. M.
